Always Designing for People™

The retirement years hold many possibilities. Whether you see yourself working less, starting a new career, enjoying hobbies, or traveling, chances are you'll need to plan ahead and save.

We all want to achieve the financial security to afford to spend retirement as we choose. It's up to you to save for your future—and the The KL Group, Inc.DBA Johnstone Supply Of Central NY 401(k) Profit Sharing Plan can help.

JOIN NOW TO TAKE ADVANTAGE OF THESE BENEFITS:

- **Your employer helps.**
- **Your contributions.** How much you save will have a big impact on how much money you will have when you retire.
- **Pre-tax saving.** Saving pre-tax lowers your current taxable income allowing you to pay less in taxes now and take more income home. See how in the chart below. You defer paying taxes on your savings and earnings until you start making withdrawals.
- **Tax-advantaged savings with the Roth 401(k).** With Roth, your contributions are taxed now—instead of when you retire. You can get more information about the Roth 401(k), including a calculator on the web site.
- **Plan features that simplify planning.** Save Smart and automatic Account Rebalancing.

» **The out-of-pocket amount is less than the amount contributed in the plan.**

Pre-Tax Saving

It costs less than you think to save for your retirement.

Annual Salary: $30,000 **Tax Bracket: 15%**

Pre-tax Contribution Rate	**2%**	**4%**	**6%**
» Weekly Plan Contribution	$11.54	$23.08	$34.62
Weekly Tax Savings	$1.73	$3.46	$5.19
» Weekly Out-of-Pocket Amount	$9.81	$19.62	$29.43
Annual Contribution	$600	$1200	$1800
Account Balance After 30 Years	**$75,015**	**$150,030**	**$225,044**

This chart is for illustrative purposes only. This example assumes contributions made at the beginning of the month and an 8% annual effective rate of return compounded monthly. Results are not meant to represent past or future performance of any specific investment vehicle. Investment return and principal value will fluctuate and when redeemed, the investment may be worth more or less than its original cost. Taxes are due upon withdrawal. Withdrawals taken prior to age 59½ may be subject to a 10% tax penalty. ADP makes no recommendation regarding the appropriateness of any amount you may consider contributing to your employer's plan.

Your plan makes it easy for you to start saving for your future financial security. Take the first step and enroll today.

CONSIDER THE ROTH 401(K) OPTION

Your plan offers another tax-advantaged savings option: a Roth 401(k). With Roth, your contributions are taxed now—instead of when you retire. Your contributions and earnings grow tax-free, which means you pay no taxes when you make a withdrawal if certain conditions are met. A Roth 401(k) may be right for you if:

- Your federal income tax rate will be higher when you retire
- You expect to invest for many years and reach a higher tax bracket when you retire

You can also use the Roth 401(k) calculator on the plan web site to help you decide.

ADP makes no recommendation regarding the appropriateness of Roth versus non-Roth elective deferrals.

You Decide: Roth or Traditional 401(k)

	Traditional 401(k)	**Roth 401(k)**
Employee Contributions	Before-tax dollars	After-tax dollars
Account Growth (earnings)	Tax-deferred until distribution	Tax-free at distribution (if distribution is qualified)
Federal Tax	Reduces current taxable income by contribution amount	Contribution is taxable in current year
	Taxes paid at withdrawal	No taxes due on qualified withdrawals*
Distributions	Please see the Plan Information section at the back of this guide for more details.	Tax-free, provided you had the account for at least five years and meet the plan requirements as detailed in the Plan Information section.

*Tax law requirements must be met.

Personal Investor Profile

The asset allocations provided by this Personal Investor Profile are provided for educational purposes only and should not be construed as investment advice. In applying any asset allocation model to your individual situation, you should consider your other assets, income and investments in addition to any balance you may have in a retirement plan. See your financial advisor before making any decision as to your asset allocation.

Answer the following questions with the corresponding point value to determine your investor profile score.

The results of this quiz are intended to help you identify what type of investor you may be. This quiz is not intended to recommend a particular asset allocation or to provide individual advice.

Profiles

Conservative Profile
This profile may be right for you if you want to avoid a potential loss of account value, or if you are nearing retirement. You should be willing to go without the potential for higher long-term returns in exchange for a more stable and predictable return.

Moderate Conservative Profile
This profile may be right for you if your primary goal is to avoid short-term losses. However, you also want higher long-term returns to offset the effects of inflation. Your account will likely have relative stability, but in order to keep up with inflation, some fluctuations in your account value should be expected.

Moderate Profile
This profile may be right for you if you are interested in balancing your level of risk and return. You want to have returns in excess of inflation and an increase in your account value over the long term, and, you should be willing to accept short-term losses and fluctuations in your account value.

Moderate Aggressive Profile
This profile may be right for you if you have more time until retirement and can tolerate higher-than-average fluctuations in your account value. This type of allocation provides the potential for higher-than-average returns over the long term. You should be willing to accept short-term losses and less stable returns.

Aggressive Profile
This profile may be right for you if you are willing and able to stay the course through short-term gains and losses because you want the potential for higher returns over the long term. You should have a long time until retirement and a high tolerance for risk. You should be willing to accept frequent short-term losses and extreme fluctuations in account value.

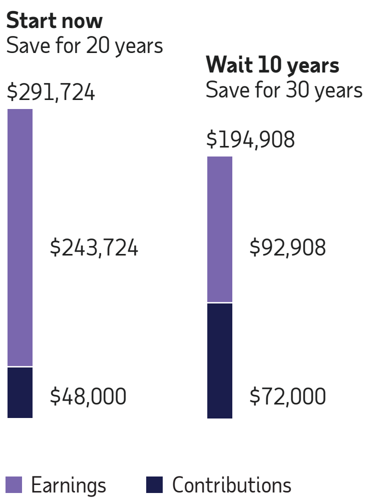
Starting earlier can pay off

It's important to save enough for your future, and it's also important to understand the concept of compounded returns. The chart shows how starting earlier puts compounding to work for you over time.

Save $200 a month



This hypothetical illustration assumes pre-tax contributions made at the beginning of each month and an annual effective rate of return of 6% and reinvestment of earnings.

* Start now assumes the contributions are invested for 40 years;

** Wait 10 years assumes contributions are invested for 30 years. Results are for illustrative purposes only and are not meant to represent the past or future performance of any specific investment vehicle. Investment return and principal value will fluctuate and, when redeemed, the investment may be worth more or less than their original cost. Taxes are due upon withdrawal. Withdrawals taken prior to age 59 ½ may be subject to a 10% tax penalty. ADP makes no recommendation regarding the appropriateness of any amount you may consider contributing to your employer's plan.

YOUR PLAN HELPS MAKE IT EASY FOR YOU TO SAVE BY OFFERING THE FOLLOWING FEATURES:

- **A broad range of investment options.*** When you decide how to invest your account balance, spreading your savings among different investments can help smooth the ups and downs of market cycles and reduce risk. In deciding how to allocate the investment of your account balance, keep in mind that some of the plan's investment options, known as "target date funds," contain an asset allocation strategy within the investment option itself.
- **Automatic contributions.** If you want to have contributions automatically deducted, your company's plan offers Automatic Enrollment. If you do not elect to participate in the plan, you will be automatically enrolled into the plan at the predetermined rate.
- **An account you can take with you.** Should you leave the company, your vested balance is yours to take with you.

START MOVING IN THE RIGHT DIRECTION.
Here's what you need to do to open your retirement account:

- **Follow the enclosed instructions to join today.**
- **Contributions.** Determine your contribution level to the plan and consider whether you want to contribute enough to receive the full plan match (if your employer makes a matching contribution)
- **Name your account beneficiary(ies).**

*The underlying mutual funds in the portfolios of asset allocation funds are subject to stock market risk and invest in individual bonds whose yields and market values fluctuate, so that your investment may be worth more or less than its original cost. The target date of a target date mutual fund is the approximate date when an investor plans to begin withdrawing their money from the fund. The principal value of a target date fund is not guaranteed at any time, including at the target date. Keep in mind that a target date mutual fund is comprised of a mix of underlying investment options in various asset classes. Therefore, if you decide to invest in other funds in addition to a target date mutual fund, you may overweight your account in a particular asset class. The funds automatically change their underlying asset allocation gradually changes over time, becoming more conservative as the target date approaches. Choosing one of these investment options could simplify your asset allocation approach. Remember that the underlying mutual funds in the portfolios of asset allocation funds are subject to stock market risk and invest in individual bonds whose yields and market values fluctuate, so that your investment may be worth more or less than its original cost. The principal value of a target date fund is not guaranteed at any time, including at the target date.

In an effort to eliminate or reduce the negative effects of short-term trading and market timing, many investment companies have established excessive trading and/or redemption fee policies for certain investments. ADP Retirement Services, whenever possible, implements the investment company's market timing policy (please review the fund's prospectus for information on a specific fund company's policies). However, there are instances when in consultation with an investment fund company, ADP Retirement Services may impose a market timing policy which the individual fund company has agreed to or requested that is different than the policy in the fund's prospectus. Because investment options in your retirement savings plan may be subject to these policies, please refer to your Web site (or, if the Web site is not available to you, call a Service Representative) for additional information.

I ROLLOVER INSTRUCTIONS

This form is used to invest prior plan money into your current retirement plan. Generally, you can roll over assets from these types of plans: Qualified Plans (Including 401(k) Plans), SIMPLE IRAs in existence for at least 2 years, Conduit and Traditional IRAs (taxable non- Roth distributions only), 457(b) plans, and 403(b) tax sheltered annuity contracts.

Please note: if available, your existing Investment Allocations will be used. Otherwise monies will be invested in the Plan's Default Fund.

Section II.A. Check (✓) the appropriate box to identify the source of this Rollover.

Section II.B. A preprinted certified or bank check must accompany this form for the stated dollar amount. Personal checks will be returned. **Please include the last four digits of your Social Security Number and Plan Number on the check made payable to Reliance Trust Company**.

Section II.C. **Gather Required Rollover Documentation**

All rollovers must be from an eligible retirement plan source. Attach **one** of the following in support of this:

- Quarterly Participant Statement from prior employer plan
- Most recent account statement from Individual Retirement Account (IRA)
- IRS Determination or Opinion Letter from prior plan
- Letter from Prior Trustee or IRA Custodian stating the Plan or account is qualified

Section III. Read the acknowledgment, and then sign and date the form.

Note: If you have not previously enrolled in the Plan, you must complete a Beneficiary Form and give it to your Plan Administrator. **Do not send to ADP.**

II ROLLOVER AMOUNT/SOURCE

A. This rollover is a distribution from one of the following eligible rollover sources: (Select one type of plan or account.)

☐ Individual Retirement Account ☐ SIMPLE IRA (IRA must be in existence for at least 2 years) ☐ §457 Plan ☐ §403(b) Tax Sheltered Annuity

☐ Qualified Plan

If Qualified Plan, is this rollover from a related employer? (Most rollovers are from plans maintained by an *unrelated employer.*)

☐ an Unrelated Employer ☐ a Related Employer

Note: If you do not check a box, we will understand you have certified that the rollover is from an unrelated employer.

B. Select rollover type:

☐ Before-Tax $.

TOTAL ROLLOVER AMOUNT

☐ Roth 401(k) $. = $. + $.

TOTAL ROTH AMOUNT Contributions Earnings

Year Roth 401(k) contributions began: (if not provided, ADP will use the year this rollover contribution is received) 20__

NOTE: Rollovers of Roth 401(k) monies may only be made via direct rollover and may not be rolled over from an IRA. Please refer to the distribution statement provided by your prior 401(k) provider for this information.

III PARTICIPANT ACKNOWLEDGMENT, ROLLOVER INVESTMENT DIRECTION AND SIGNATURE

I have read and understand the Summary Plan Description, agree to the Plan provisions, received the Fee Disclosure Statement and reviewed and understand the fund prospectuses/descriptions, including the funds' objectives, risks, expenses and charges. By signing this form, I certify that:

- I am rolling over these funds within 60 days of the date I received them from an eligible employer plan or IRA (not applicable to direct rollovers).
- The rollover is from the source indicated and has not been combined with any money that would disqualify it.
- No portion of this rollover contribution represents amounts received as a hardship distribution, required minimum distribution or periodic payment from another employer plan.
- I have attached the required documentation.

How your money will be invested: I understand that if I do not have a plan account one will be established for my rollover contribution and invested in the plan default fund. Once my account has been established, I will be mailed my account access information and can make investment allocation changes through the plan website or Voice Response System. If I already have a plan account established, I direct that my rollover contribution be invested in accordance with my investment election on file.

Many investment companies have excessive trading and/or redemption fee policies for certain investments to eliminate or reduce the negative effects of short-term trading and market timing. When possible, ADP Retirement Services implements the investment company's market timing policy (as disclosed in the prospectus). However, in some circumstances ADP may impose a different policy than listed in the prospectus at the request or with the agreement of a fund company. Your plan investment options may be subject to these policies. See your plan website for your plan's fund policies and additional information.

[1] The 7-day yield more closely reflects the current earnings of the money market fund than the total return quotation.

The 7-day yield for the Vanguard Federal Money Market Fund - Investor Class is 2.24%.

[2] Commingled Funds are not publicly traded mutual funds and are not listed in public stock market listings such as the Wall Street Journal.

[3] Quarter-end returns are for the most recent quarter-end performance. (Quarter-end periods are 3/31, 6/30, 9/30 and 12/31.)

[4] 10 year or since inception of the fund.

You could lose money by investing in the **Money Market Fund**. Although the Fund sees to preserve the value of your investment at $1.00 per share, it cannot guarantee it will do so. The Fund may impose a fee upon sale of the shares or may temporarily suspend your ability to sell the shares if the Fund's liquidity falls below required minimums because of market conditions or other factors. An investment in the Fund is not insured or guaranteed by the Federal Deposit Insurance Corporation (FDIC) or any other government agency. The Fund's sponsor has no legal obligation to provide financial support to the Fund, and you should not expect that the sponsor will provide financial support to the Fund at any time.

Investment Returns and principal value of an investment will fluctuate so that when an investor's shares are redeemed, they may be worth more or less than the original cost. The returns represent past performance. Past performance is no guarantee of future results.

*An expense ratio is a fund's annual operating expenses expressed as a percentage of average net assets and includes management fees, administrative fees, and any marketing and distribution fees. Expense ratios directly reduce returns to investors. The expense ratio typically includes the following types of fees: accounting, administrator, advisor, auditor, board of directors, custodial, distribution (12b-1), legal, organizational, professional, registration, shareholder reporting, sub-advisor, and transfer agency. The expense ratio does not reflect the fund's brokerage costs or any investor sales charges. For publicly traded mutual funds, the net prospectus expense ratio is collected from the fund's most recent prospectus and provided by Morningstar. This is the percentage of fund assets paid for operating expenses and management fees. In contrast to the net expense ratio, the gross expense ratio does not reflect any fee waivers in effect during the time period. Morningstar pulls the prospectus gross expense ratio from the fund's most recent prospectus. Commingled Fund expense ratios are provided by the investment managers.

**The net expense ratio reflect the expense ratio of the fund after applicable expense waivers or reimbursements. Waivers or reimbursements, if any, are contractual and the fee represents the Fund's annualized aggregate asset charges based on the Fund's investment in underlying funds as disclosed in the current prospectus.

For complete information on the funds, please see the prospectus and consider the investment objective, risks, charges and expenses before investing. The prospectus contains this and other important information related to the funds and the investment company. Please read it carefully before investing. Vanguard Federal Money Market Fund - Investor Class
STRATEGY: The fund invests primarily in high-quality, short-term money market instruments. At least 80% of the fund?s assets are invested in securities issued by the U.S. government and its agencies and instrumentalities. Although these securities are high-quality, most of the securities held by the fund are neither guaranteed by the United States Treasury nor supported by the full faith and credit of the U.S. government. To be considered high-quality, a security generally must be rated in one of the two highest credit-quality categories for short-term securities by at least two nationally recognized rating services (or by one, if only one rating service has rated the security). The fund will maintain a dollar-weighted average maturity of 60 days or less.

Lord Abbett Short Duration Income Fund - Class I
STRATEGY: The investment seeks a high level of income consistent with preservation of capital. The fund invests primarily in various types of short duration debt (or fixed income) securities. It invests at least 65% of its net assets in investment grade debt securities including corporate debt securities of U.S. issuers; corporate debt securities of non-U.S. (including emerging market) issuers that are denominated in U.S. dollars; mortgage backed, mortgage-related, and other asset-backed securities; and securities issued or guaranteed by the U.S. government, its agencies or instrumentalities; and inflation-linked investments.

MFS Government Securities Fund - Class R6
STRATEGY: The investment seeks total return with an emphasis on current income, but also considering capital appreciation. The fund normally invests at least 80% of its net assets in U.S. government securities. U.S. government securities include mortgage-backed securities and other types of securitized instruments issued or guaranteed by the U.S. Treasury, by an agency or instrumentality of the U.S. government, or by a U.S. government-sponsored entity. It generally invests substantially all of its assets in investment grade quality debt instruments. The fund may invest a significant percentage of the fund's assets in a single issuer or a small number of issuers.

JPMorgan Core Plus Bond Fund - Class L
STRATEGY: The investment seeks a high level of current income by investing primarily in a diversified portfolio of high-, medium- and low-grade debt securities. The fund will normally invest at least 80% of its net assets plus the amount of borrowings for investment purposes in bonds. Under normal conditions, at least 65% of the fund's total assets must be invested in securities that, at the time of purchase, are rated investment grade. It may invest up to 35% of its net assets in foreign securities, including securities denominated in foreign currencies. The fund's average weighted maturity will ordinarily range between five and twenty years.

T Rowe Price Global Multi Sector Bond Fund - Class I
STRATEGY: The investment seeks high income and some capital appreciation. The fund will invest at least 80% of its net assets (including any borrowings for investment purposes) in bonds. It may invest in a variety of holdings in an effort to enhance income and achieve some capital growth. There is no limit on the fund's investments in U.S. dollar-denominated foreign debt instruments. Up to 65% of the fund's net assets can be invested in securities and other holdings that are rated noninvestment-grade (below BBB, or an equivalent rating).

Vanguard Target Retirement 2015 Fund - Investor Class
STRATEGY: The investment seeks to provide capital appreciation and current income consistent with its current asset allocation. The fund invests in other Vanguard mutual funds according to an asset allocation strategy designed for investors planning to retire and leave the workforce in or within a few years of 2015 (the target year). The fund's asset allocation will become more conservative over time, meaning that the percentage of assets allocated to stocks will decrease while the percentage of assets allocated to bonds and other fixed income investments will increase.

Vanguard Target Retirement 2055 Fund - Investor Class
STRATEGY: The investment seeks to provide capital appreciation and current income consistent with its current asset allocation. The fund invests in other Vanguard mutual funds according to an asset allocation strategy designed for investors planning to retire and leave the workforce in or within a few years of 2055 (the target year). The fund's asset allocation will become more conservative over time, meaning that the percentage of assets allocated to stocks will decrease while the percentage of assets allocated to bonds and other fixed income investments will increase.

Fidelity Advisor Balanced Fund - Class I
STRATEGY: The investment seeks both income and growth of capital. The fund invests approximately 60% of assets in stocks and other equity securities and the remainder in bonds and other debt securities, including lower-quality debt securities (those of less than investment-grade quality, also referred to as high yield debt securities or junk bonds), when its outlook is neutral. It invests at least 25% of total assets in fixed-income senior securities.

Vanguard Equity Income Fund - Admiral Class
STRATEGY: The investment seeks to provide an above-average level of current income and reasonable long-term capital appreciation. The fund invests mainly in common stocks of mid-size and large companies whose stocks typically pay above-average levels of dividend income and are, in the opinion of the purchasing advisor, undervalued relative to similar stocks. In addition, the advisors generally look for companies that they believe are committed to paying dividends consistently. Under normal circumstances, it will invest at least 80% of its assets in equity securities. The fund uses multiple investment advisors.

Schwab S&P 500 Index Fund
STRATEGY: The investment seeks to track the total return of the S&P 500 Index. The fund generally invests at least 80% of its net assets (including, for this purpose, any borrowings for investment purposes) in these stocks; typically, the actual percentage is considerably higher. It generally will seek to replicate the performance of the index by giving the same weight to a given stock as the index does.

T. Rowe Price Blue Chip Growth Fund - Investor Class
STRATEGY: The investment seeks long-term capital growth; income is a secondary objective. The fund will normally invest at least 80% of its net assets (including any borrowings for investment purposes) in the common stocks of large and medium-sized blue chip growth companies. It focuses on companies with leading market positions, seasoned management, and strong financial fundamentals. The fund may sell securities for a variety of reasons, such as to secure gains, limit losses, or redeploy assets into more promising opportunities.

Victory Sycamore Established Value Fund - Class I
STRATEGY: The investment seeks long-term capital growth by investing primarily in common stocks. The fund pursues its investment objective by investing, under normal circumstances, at least 80% of its assets in equity securities of companies with market capitalizations, at the time of purchase, within the range of companies comprising the Russell MidCap Value Index. The fund may invest a portion of its assets in equity securities of foreign companies traded in the U.S., including American Depositary Receipts and Global Depositary Receipts (ADRs and GDRs).

Columbia Mid Cap Index Fund - Institutional 2 Class
STRATEGY: The investment seeks total return before fees and expenses that corresponds to the total return of the Standard & Poor's (S&P) MidCap 400 Index. The fund invests at least 80% of its net assets (including the amount of any borrowings for investment purposes) in common stocks that comprise the S&P MidCap 400 Index. In seeking to match the performance of the index, the Investment Manager attempts to allocate the fund's assets among common stocks in approximately the same weightings as the index. The manager attempts to achieve at least a 95% correlation between the performance of the index and the fund's investment results, before fees and expenses.

MFS New Discovery Value Fund - Class R6
STRATEGY: The investment seeks capital appreciation. The fund normally invests its assets in equity securities. Equity securities include common stocks, equity interests in real estate investment trusts (REITs), and other securities that represent an ownership interest (or right to acquire an ownership interest) in a company or other issuer. MFS focuses on investing in the stocks of companies the adviser believes are undervalued compared to their perceived worth (value companies). While the fund may invest the fund's assets in companies of any size, it primarily invests in companies with small capitalizations. The fund may invest the fund's assets in foreign securities.

Vanguard Small Cap Index Fund - Admiral Class
STRATEGY: The investment seeks to track the performance of a benchmark index that measures the investment return of small-capitalization stocks. The fund employs an indexing investment approach designed to track the performance of the CRSP US Small Cap Index, a broadly diversified index of stocks of small U.S. companies. The advisor attempts to replicate the target index by investing all, or substantially all, of its assets in the stocks that make up the index, holding each stock in approximately the same proportion as its weighting in the index.

American Funds EuroPacific Growth Fund - Class R6
STRATEGY: The investment seeks long-term growth of capital. The fund invests primarily in common stocks of issuers in Europe and the Pacific Basin that the investment adviser believes have the potential for growth. Growth stocks are stocks that the investment adviser believes have the potential for above-average capital appreciation. It normally will invest at least 80% of its net assets in securities of issuers in Europe and the Pacific Basin. The fund may invest a portion of its assets in common stocks and other securities of companies in emerging markets.

Invesco Oppenheimer Developing Markets Fund - Class Y
STRATEGY: The investment seeks capital appreciation. The fund mainly invests in common stocks of issuers in developing and emerging markets throughout the world and at times it may invest up to 100% of its total assets in foreign securities. Under normal market conditions, it will invest at least 80% of its net assets, plus borrowings for investment purposes, in equity securities of issuers whose principal activities are in a developing market, i.e. are in a developing market or are economically tied to a developing market country, and in derivatives and other instruments that have economic characteristics similar to such securities.

DFA Real Estate Securities Portfolio - Institutional Class
STRATEGY: The investment seeks long-term capital appreciation. The fund, using a market capitalization weighted approach, purchases readily marketable equity securities of companies whose principal activities include ownership, management, development, construction, or sale of residential, commercial or industrial real estate. It will principally invest in equity securities of companies in certain real estate investment trusts and companies engaged in residential construction and firms, except partnerships, whose principal business is to develop commercial property.

Expressed in percentage terms, Morningstar's calculation of total return is determined each month by taking the change in monthly net asset value, reinvesting all income and capital-gains distributions during that month, and dividing by the starting NAV. Reinvestments are made using the actual reinvestment NAV, and daily payoffs are reinvested monthly.

The Investment Strategy is provided by Morningstar® for all publicly traded mutual funds. Investment Strategy information for Money Market funds and certain other types of funds are provided by the respective fund manager.

Investment Type Definitions:

The investment types are four broad investment categories; each fund is categorized based on where the fund is listed in Morningstar, Inc.'s investment category. Income: Money Market, Stable Value, and Fixed Income investment funds. Growth and Income: Balanced and Lifestyle investment funds. Growth: Large and Mid Capitalization investment funds. Aggressive Growth: Small Capitalization, Specialty, Foreign Stock and World Stock investment funds.

The Morningstar Category identifies funds based on their actual investment styles as measured by their underlying portfolio holdings (portfolio statistics and compositions over the past three years). If the fund is new and has no portfolio, Morningstar estimates where it will fall before assigning a more permanent category. When necessary, Morningstar may change a category assignment based on current information.

Investment Risk

Foreign Securities Funds/Emerging Markets Funds: The investor should note that funds that invest in foreign securities involve special additional risks. These risks include, but are not limited to, currency risk, political risk, and risk associated with varying accounting standards. Investing in emerging markets may accentuate these risks.

Sector Funds: The investor should note that funds that invest exclusively in one sector or industry involve additional risks. The lack of industry diversification subjects the investor to increased industry-specific risks.

Non-Diversified Funds: The investor should note that funds that invest more of their assets in a single issuer involve additional risks, including share price fluctuations, because of the increased concentration of investments.

Small Cap Funds: The investor should note that funds that invest in stocks of small companies involve additional risks. Smaller companies typically have a higher risk of failure, and are not as well established as larger blue-chip companies. Historically, smaller-company stocks have experienced a greater degree of market volatility than the overall market average.

Mid Cap Funds: The investor should note that funds that invest in companies with market capitalizations below $10 billion involve additional risks. The securities of these companies may be more volatile and less liquid than the securities of larger companies.

High-Yield Bond Funds: The investor should note that funds that invest in lower-rated debt securities (commonly referred to as junk bonds) involve additional risks because of the lower credit quality of the securities in the portfolio. The investor should be aware of the possible higer level of volatility, and increased risk of default.

Tax-Free Municipal Bond Funds: The investor should note that the income from the tax-free municipal bond funds may be subject to state and local taxation and the Alternative Minimum Tax.

Target Date Funds: Target date funds generally invest in a mix of stocks, bonds, cash equivalents, and potentially other asset classes, either directly or via underlying investments, and may be subject to all the risks of these asset classes. The allocations become more conservative over time: The percentage of assets allocated to stocks will decrease while the percentage allocated to bonds will increase as the target date approaches. The higher the allocation is to stocks, the greater the risk. The principal value of the investment option is never guaranteed, including at and after the target date.
