Subject: COVID-19 Positive Test / Isolation Order Request Form
To: Kimberly Anne Schlafer <kimberly.schlafer@gmail.com>

You have submitted a Monroe County COVID-19 positive test / isolation order request.

Please read the attached isolation order from the Monroe County Department of Public Health.

This order will serve as both your isolation order and release. Isolation is for 5 days, and then you must wear a well-fitting mask for an additional 5 days, with the following exceptions.

EXCEPTIONS:

- If you continue to have symptoms you must stay in isolation for up to 10 days. If your symptoms are improving, you can leave isolation and you **MUST** wear a well-fitting mask for an additional 5 days.
- If you **CANNOT** wear a well-fitting mask, you must isolate for 10 days.
- If you are moderately- to severely- immunocompromised, you must isolate for 10 days.

Department of Public Health

Monroe County, New York

Health Order of Isolation for COVID-19

TO: Kimberly Anne Schlafer ADDRESS: 121 Marion Street, Rochester, NY 14610

Effective upon your receipt of this Health Order of Isolation for COVID-19, you are hereby directed by the Health Commissioner of the Monroe County Department of Public Health ("Commissioner" of "MCDPH") to isolate yourself from the community because you have or are suspected to have a communicable disease as defined in the New York State Sanitary Code 10 N.Y.C.R.R. § 2.1.

MCDPH has learned that you have or are suspected to have a communicable disease called COVID-19. COVID-19 is highly contagious and may be fatal. The basis for this order is a positive test for COVID-19 and/or exhibited symptoms of COVID-19, which may include but is not limited to test results you have provided to MCDPH. Based upon the foregoing, you are ordered to remain at 121 Marion Street, Rochester, NY 14610, your place of residence ("Isolation Location"), by the authority vested in the Commissioner under the New York State Public Health Law and regulations, including but not limited to Public Health Law § 2100 and 10 N.Y.C.R.R. § 2.13.

If you are isolated in a hospital, you shall remain within the specific location within the hospital ordered by your treatment providers. If you are isolated someplace other than in a hospital, you must report your health condition to MCDPH as, how, and when instructed by MCDPH personnel. If the location of isolation is a multiple dwelling structure, you shall remain within your specific dwelling, and may not, under any circumstances, come within six (6) feet of any other person. However, if the Isolation Location is a detached structure (e.g., a single family home), you may go outside of the structure while remaining on the premises, although you may not, under any circumstances, come within six (6) feet of any other person not also residing at those same premises (and in that case you shall also limit your contact with those other persons with whom you do reside to all practicable extent).

Except as described herein, you may not leave your Isolation Location without further order of either the Commissioner or a Court of proper jurisdiction; if travel is required to your Isolation Location, or to and from medical appointments, you are obligated to follow the instructions of MCDPH personnel regarding the manner and method of travel.

This Order will remain in effect initially for five (5) days following the date of your positive test or symptom onset, if any, whichever is earlier, and which MCDPH understands occurred on 1/7/2022, or until otherwise ordered by MCDPH or a Court of proper jurisdiction. If after five (5) days you have no symptoms or your symptoms are resolving, your isolation period shall end, and this Order will no longer be in effect. In such case, you must wear a well-fitting mask while around others for an additional five (5) days. If, however, (a) your symptoms are not resolving after the initial 5-day isolation period; OR (b) you are moderately- to severely- immunocompromised; OR (c) you are unable to wear a well-fitting mask for five (5) additional days after a the initial 5-day isolation, this Order will remain in effect for five (5) additional days, for a total of ten (10) days following the date of your positive test or symptom onset, if any, whichever is earlier, or until otherwise ordered by MCDPH or a Court of proper jurisdiction. If you work in a particular setting for which the State of New York requires a longer isolation period before return to work, including but not limited to a healthcare setting or congregate care setting, your employer may apply additional requirements, pursuant to New York State directives, that may affect that date of your return to work.

In order to prevent harm to the general public resulting from your failure to comply with the terms of your isolation, MCDPH personnel, law enforcement personnel, and anyone else designated by the Commissioner, are hereby authorized and directed to use all reasonable means necessary to enforce this Order, including physical force. Instructions for isolation (i.e., maintaining appropriate distance and taking other actions to prevent transmission to other persons living or working in the Isolation Location) are attached to this Order and incorporated by reference in this Order as if fully set forth herein. You must refrain from conducting yourself in a disorderly manner during the term of this Order, and if applicable, you must abide by the rules and regulations of the institution to which you are committed.

At your request, MCDPH will inform a reasonable number of persons of the conditions of your isolation. You have the right to seek judicial review of this Order. You also have the right to legal counsel. If you cannot afford counsel, counsel will be appointed upon request to the Court.
