

NCR Payroll & HR Solutions Proposal

Prepared for:

The Wallace Group

Prepared by:

Wendi Russiano
January 31, 2022

Proposal Overview

On behalf of NCR, we are pleased to deliver the following proposal for services. We thank you for the opportunity to discuss your organizational needs and review how our technology will assist in helping you exceed your business goals.

We are confident NCR Payroll and HR solutions will help drive meaningful results for your organization, your employees, and your continued success. Please review the following information and feel free to contact us with any questions or feedback you may have.

We appreciate your consideration and look forward to discussing next steps.

Thank you!

Service and Implementation

At NCR, we understand that building our partnership and switching HCM providers is a critical time for your business. But we're with you every step of the way. From day one, you'll always have a dedicated point-of-contact to answer your questions, proactively keep you informed on progress, and deliver knowledgeable, friendly support throughout your relationship with NCR Payroll & HR Solutions.

Your NCR team:

NCR Sales Specialist

We confirm all necessary agreements and documentation are submitted so we can get started on your account set up. We'll also continue to work with you throughout the year to identify any other business needs you may have and recommend applicable solutions.

Implementation Coordinator

Your go-to representative throughout implementation, acting as the "quarterback" on your behalf, coordinating with implementation and ensuring you're comfortable working in the solution and that it meets your specifications.

System Configuration Specialists

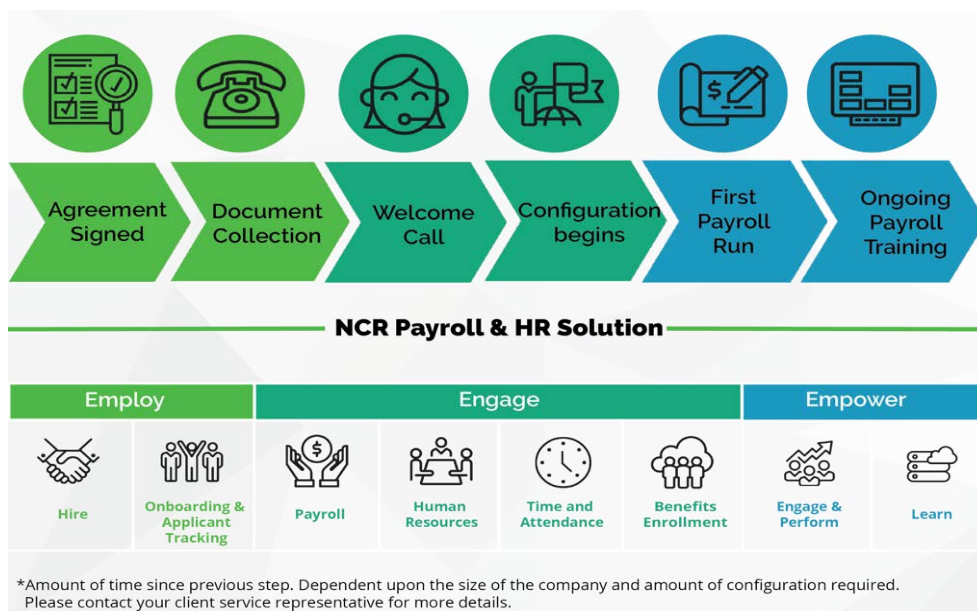

During implementation, you will work with specialists in the following areas to ensure each module is configured to your needs: Payroll, Applicant Tracking, Onboarding, HR, Benefits, Time & Attendance, and General Ledger.

Client Service

Following implementation, your implementation coordinator will transition HCM management of your account to your dedicated Client Service Representative who will continue to be your primary point-of-contact with NCR.

Account & Relationship Management

We will work closely with your NCR Client Service Representative to confirm we're continuing to provide you with the right mix of solutions and keep you up to date on the latest technology and service enhancements from NCR.

Your Custom NCR Solution - Details

Based on a review of your organization's initiatives and requirements, we recommend NCR's Custom HCM Bundle. Below is an overview of the services included in this package and any additional solutions we recommend, to simplify complexities and realize better business outcomes.

Custom HCM Bundle

Empowering organizations to be great employers

HR Legal-Ask HR- myHRcounsel

Minimize the risk of employee liability with compliant regulatory policies, including legally drafted employee handbooks, employment policies, and documents.

ACA Compliance

Pro HCM provides clients with analysis and ongoing notifications around the requirements of the Affordable Care Act. Reporting helps you determine if you are an applicable large employer, and which employees are considered full time, and are eligible for health insurance. The benefits administration module allows eligible employees to enroll in benefits online during open enrollment, new hire eligibility, or a change in status. We'll produce the required 1094 & 1095 forms each year you are required to report.

Employee Onboarding

Enable employees to complete their new-hire documentation, including direct deposit and tax forms, via a paperless, we-based experience.

Time & Labor Management

Pro HCM's integrated time keeping means that employee hours would already be in the system when you're ready to run payroll – no importing or entering hours from a separate system. Use the latest technology to effectively collect, manage and process employee time and attendance data, mix and match the time collection methods best for your workforce including various time clocks, virtual clock, PC workstation, or mobile punch. Track PTO accruals and balances, requests for time off are automatically sent to the approving manager who can manage time off & approve timecards online or on the mobile app. Approved time off hours will automatically update the employee's time off balances and they can view at any time in Employee Self Service.

You also have the option to continue to use your current ERP for time collection and upload employee time/hours worked into payroll each pay period.

Payroll

Payroll & Tax Filing – THIS AREA OF OUR HCM IS ALREADY IMPLEMENTED

Payroll Services

Pay employees and independent contractors via check, direct deposit, or paycard and remit payments to third parties for garnishments, automatically. Our web-based solution provides you with the peace of mind knowing you can process your payroll from anywhere you can access the internet.

Job Costing & Labor

Determine how resources and time are spent with greater precision. Create labor assignments or project descriptions to your specifications to organize expenses to assist in determining what parts of the business are profitable, and integrate data with your general ledger

Payroll Tax Filing

Federal, state, and local payroll taxes are automatically calculated and deposited as well as accompanying tax returns filed on your behalf. Regular system updates ensure compliance with changes to tax laws, employee related tax-credits, and other compliance related issues.

Garnishments

Manage garnishments and deduct mandated employee funds, which we file on your behalf.

Direct Deposit

Employees to have their pay deposited into their checking or savings account(s).

Reporting and Analytics

Extensive payroll reports menu. Per payroll or date range with the ability to schedule reports to be automatically generated. Create your own custom reports with the built-in reporting tool and export data.

Efficiency

Create efficiencies by automating processes and eliminating manual entry

Employee Self-Service & Mobile App

Deliver an employee experience that helps your people complete important HR like tax and direct deposit changes, address updates, life events time off requesting, and pay stub & W2 downloads.

Workflows and Approvals

Define approval procedures for select self-service activities to ensure proper checks and balances for employee or manager changes and other sensitive processes. HR may need to review corrective action before a manager has a conversation with the employee. The system can notify HR that a corrective action is pending approval. Maybe a payroll approver wants to be notified that an employee has changed their direct deposit or tax information. Approval requirements are not a problem – you determine what changes need an approval or just a notification.

Reporting & Analytics

Streamline your business and save time and effort with 300+ standard reports, much more than payroll, including OSHA 300, EEO, Vet-100, Employee/HR Data or create your own custom reports. Dashboard reports provide instant access to turnover, labor costs, and other analytical data necessary to your workforce management needs.

Custom Payroll & HR Solution
