JU Online User Deactivation

Effective Tuesday, September 17th, we have a revised process for you to follow for disabling user accounts in JU Online (internal JUO) and Johnstone University (external JUOC) when they leave Johnstone.

NOTE: If you do not administer user accounts on JUOnline.com or JohnstoneUniversity.com, please let us know so we can modify your permissions.

What:

- Several Group Administrators ask for the ability to see transcripts of previous users whose accounts have been removed from the group.
- Several Group Administrators need the ability to reactivate someone who has been re-hired.
- Using the Remove link causes problems in security, billing and administration.
- By following this revised process, the system will be more secure and will address concerns you have surfaced.

Why?

- **Data security** - This process will make it so the user can no longer sign in and access their account.
- **Data integrity** - This process will allow JU Group Champions (aka Group Administrators) to easily re-activate a seasonal worker who has been re-hired. This will allow University Administrators to easily transfer a user to a new group if they transfer to a different Member group.
- **Reporting** - This process will allow for more accuracy in reporting and the ability of Group Administrators to access transcripts for previous users.
- **Billing** - This process will allow us to bill the appropriate group and you will be able to see what courses they took that you are billed for.

When:

We have already had some JU Champions piloting this process. We ask that all JU Champions follow the new process effective, September 17, 2019.

Here's what you need to do to deactivate a user account when an employee or customer leaves your Group:

NOTE: ALL STEPS ARE REQUIRED

1. Login to [JUonline.com](https://juonline.com) or [JohnstoneUniversity.com](https://johnstoneuniversity.com), go to user's profile information by selecting **Users > Learners > Add or Edit Users**:

2. Type in User's name or email address in the **Keyword** field then click the **Get Users** button.

In the list that displays below, click the **Edit** link next to the user you wish to update.

3. In the **User Information** section:
 - a. Change the **Email Address** to *TERM_[emailaddress]* (for example joe@johnstonesupply.com is now TERM_joe@johnstonesupply.com).
 - b. Change the **Password** and **Re-type Password** fields to *Terminated* or something your group will remember for enhanced security.

In the **JU Online/Johnstone University for Contractors Information** section:

- c. In the User Notes field type information that indicates reason, date, and initials of person making the change (Example: Terminated 5/12/2019 JW).
- d. Change User Status dropdown to Inactive.

When **ALL** changes are made, click the **Save** button

NOTES:

- If more than a calendar year has passed and you no longer wish the user to appear in your user list or reporting and you will no longer need access to their transcript, you can request permanent inactivation by sending the information to JU.online@johnstonesupply.com.
- If the user was a Group Administrator for your group in JU or JUOC, please inform the JU Team of the change at JU.online@johnstonesupply.com and let us know if they have been replaced with a new/different Group Administrator.

For future reference, this process is available on JU online under Help+ for Administrators:
