Introduction

Every employable person will match some positions better than other positions. This report provides information about Paul Fortin presented in a manner to help you understand how he matches with this selected position within your organization.

This report reflects the responses provided by Paul Fortin when he completed the **ProfileXT** assessment. The result for each characteristic is illustrated on a scale from 1 to 10. The darker area on each scale represents the best Performance Model for the position. The enlarged segment of the scale shows where Paul scored. If the enlarged segment is dark, Paul is in the Performance model. If it is lighter, he is not. Information about Paul is reported in these four categories:

- **Profile for Thinking Style** - Learning Index, Verbal Skill, Verbal Reasoning, Numerical Ability, and Numeric Reasoning.
- **Profile for Behavioral Traits** – Energy Level, Assertiveness, Sociability, Manageability, Attitude, Decisiveness, Accommodating, Independence, and Objective Judgment.
- **Profile for Interests** - Enterprising, Financial/Administrative, People Service, Technical, Mechanical, and Creative.
- **The Total Person & Management Considerations** - Description of Paul as a person and how to most effectively maximize his potential.

Note: Additional considerations are displayed when Paul falls outside your Performance Model.

If Paul is being considered for this position and his results fall outside the Performance Model, you should print the companion Interview Guide for Paul. This Guide provides appropriate interview questions for each instance where Paul is outside the model. These interview questions will guide the interviewer in exploring important areas where information from the interview will effectively assist the interviewer in making an informed decision about his placement.

Please consult the User's Guide for additional information on using these results when working with Paul. As discussed in the User's Guide for this product, the results from this or any assessment should never make up more than a third of the final decision in placements.

Profile for Thinking Style

When viewing the scales on this page and the next, the darker shading represents the Job Performance Model for the role of Controller. The larger box indicates the individual's score.

Learning Index

An index of expected learning, reasoning, and problem solving potential.

Verbal Skill

A measure of verbal skill through vocabulary.

Verbal Reasoning

Using words as a basis in reasoning and problem solving.

Numerical Ability

A measure of numeric calculation ability.

Numeric Reasoning

Using numbers as a basis in reasoning and problem solving.

Profile for Behavioral Traits

Energy Level

Tendency to display endurance and capacity for a fast pace.

Assertiveness

Tendency to take charge of people and situations. Leads more than follows.

Sociability

Tendency to be outgoing, people-oriented, and participate with others.

Manageability

Tendency to follow policies, accept external controls and supervision, and work within the rules.

Attitude

Tendency to have a positive attitude regarding people and outcomes.

Decisiveness

Uses available information to make decisions quickly.

Accommodating

Tendency to be friendly, cooperative, agreeable. To be a team person.

Independence

Tendency to be self-reliant, self-directed, to take independent action, and make own decisions.

Objective Judgment

The ability to think clearly and be objective in decision-making.

Distortion for this assessment is within the acceptable range.

Profile for Interests

The Interests section assesses the relative interests between the six interest areas: Enterprising, Financial/Administrative, People Service, Technical, Mechanical, and Creative. For the Job Match Performance Model of Controller, the top three interests, presented in order, are Enterprising, Financial/Administrative, and People Service. The top three interests for Paul are Mechanical, People Service, and Technical. Mr. Fortin shares one of these interest areas: People Service.

Top Interests for Paul Fortin

Mechanical

Indicates interest in working with tools, equipment, and machinery.

People Service

Indicates interest in activities such as helping people and promoting the welfare of others.

Technical

Indicates interest in scientific activities, technical data, and research.

Top Interests for this Performance Model

Enterprising

Indicates interest in activities associated with persuading others, sales, and presenting ideas.

Financial/Administrative

Indicates interest in activities such as organizing information or business procedures.

People Service

 = Match

The Total Person

This part of the report discusses the results for Paul Fortin on each of the scales in all three sections. The Behavioral and Management Considerations for each scale relate to his scores without reference to the Controller model. If his score falls outside the model for a particular scale, Additional Considerations will be listed as suggestions to help Paul Fortin adapt his behavior to better fit the job.

Learning Index

An index of expected learning, reasoning, and problem solving potential.

Behavioral Considerations

- Upon completing a training program, Mr. Fortin should pick up new concepts easily when appropriately presented.
- Overall, Mr. Fortin may be expected to complete a typical training program with success.
- He is generally adaptive in a variety of training situations.
- His overall learning index is average and suggests a good potential for quickly learning new information.

Management Considerations

- In complex training experiences, observe his performance and intervene when necessary to review weak areas. Time lost in review can be recovered by utilizing shorter periods on more familiar information.
- Encourage Mr. Fortin to apply great effort during the more challenging phases of a training program and recognize him for his diligence.
- Most training will pose no problems for him, but be observant of the more challenging areas and adapt your training pace to accommodate any special needs.
- In areas of particular challenge, Paul may benefit by a practice makes perfect ideology. Focus on challenging areas and reinforce his positive development.

Additional Considerations

Mr. Fortin achieved a Learning Index score outside the designated profile for this Performance Model. This suggests his approach to learning new information is different than the position typically requires. Discussions with him should determine his motivation for participating in training and what forms of training are most effective for him.

Verbal Skill

A measure of verbal skill through vocabulary.

Behavioral Considerations

- Mr. Fortin shows strong potential for developing his existing verbal skills more fully.
- He has a sound understanding of basic communication processes.
- Paul can build on his basic foundation as the particular communication skills required in performing the job become familiar.
- Mr. Fortin should be competent in understanding written and verbal data.

Management Considerations

- Paul demonstrates a high average vocabulary when compared to the general working population. On occasion his communications may appear too complex to others. If this occurs, redirect him privately on appropriate methods that are more pragmatic.
- Under situations of stress, Paul may lose patience with others when involved in communication. Counsel him on the frustration and provide alternatives to his typical means of communication.
- Mr. Fortin may occasionally experience frustration communicating with others, due to a moderately high vocabulary level. Model appropriate levels of communication and recognize his efforts to moderate his own style.
- Because Paul demonstrates a high average vocabulary, monitor his communications with coworkers, observing the potential for miscommunication.

Verbal Reasoning

Using words as a basis in reasoning and problem solving.

Behavioral Considerations

- Mr. Fortin is proficient in the use of words and language.
- Paul would not be expected to have any difficulty in effectively communicating thoughts and ideas to others.
- Mr. Fortin will typically assimilate information as well as most people in the general population.
- He demonstrates adequate and, in some areas, good verbal reasoning ability; certain areas and complexities will need training.

Management Considerations

- Using complex words and verbal information may require deliberation and consideration on his part. Observe his effectiveness in solving problems and offer assistance when necessary.
- To help overcome any difficulties in verbal problem solving, maintain close observation to be certain that verbal information is clearly understood by Mr. Fortin.
- Mr. Fortin requires additional time to process verbal information. You should communicate with him in a direct and structured manner. Review information and ask for clarity in his communications.
- In some situations, especially with complex verbal information, Mr. Fortin may require additional time to make decisions. Offer supervision and provide explanations of the information as needed.

Numerical Ability

A measure of numeric calculation ability.

Behavioral Considerations

- With training and experience Mr. Fortin should be able to quickly and accurately carry out mathematical functions as they apply to the job.
- Paul may not have had much recent opportunity to use numbers in work.
- He may require a calculator or computer to handle some numerical problems.
- Mr. Fortin may initially need extra time in mentally computing numerical information.

Management Considerations

- Mr. Fortin may occasionally require additional time to process complex numerical information. Provide assistance in the form of available tools to aid in calculations.
- He may become frustrated by tasks involving the calculation of complex data. If needed, provide training in appropriate mathematical areas and give consistent feedback.
- Observe his performance in calculating complex data that convey multivariate information. Aid Paul as needed with a mentor or formalized training.
- To facilitate his development, you will need to have Paul trained in any advanced mathematics relevant to his work.

Additional Considerations

Mr. Fortin achieved a Numerical Ability score outside the job profile for this position. This suggests he is at a different level in calculating numerical data than the position typically requires. Discussions with him should determine his potential to perform at an appropriate level on the job.

Numeric Reasoning

Using numbers as a basis in reasoning and problem solving.

Behavioral Considerations

- Mr. Fortin should be able to complete the numeric reasoning parts of the training process with little difficulty.
- Paul should not require additional time or repetition to accomplish numerical analysis.
- He may prefer calculators for more complex mathematical analysis.
- His ability to assimilate information that requires reasoning with numbers is sufficient at a general level.

Management Considerations

- The assimilation of highly complex data in order to make decisions could create some frustration for Mr. Fortin. Provide appropriate training to develop his skills in this area.
- He will require more time than many to evaluate complex numerical data. If needed, provide assistance and training to enhance his efficiency.
- When providing Paul with information on volume, quantity, finance or other numerical information, provide additional time to allow him to process the more complex elements of the data.
- Paul may require assistance in tasks like assimilating complex information expressed as a multivariate graph. Advanced decision-making and mathematical training will be necessary if this type of work is required.

Additional Considerations

On the Numerical Reasoning scale Mr. Fortin is outside the designated profile for this Performance Model. This suggests that his ability to analyze numerical data as part of the decision making process is different than the position typically requires. Discussions with him should explore the possibility that for Mr. Fortin, the position may be inappropriate for his ability level.

Energy Level

Tendency to display endurance and capacity for a fast pace.

Behavioral Considerations

- Mr. Fortin typically doesn't show a high sense of urgency. He might need help getting started on new assignments.
- He prefers not to be pressured by critical deadlines and may need time to think things through.
- Mr. Fortin may be more patient and better at working with methodical processes.
- Paul will require clearly defined priorities and deadlines as well as some external urging and motivation.

Management Considerations

- Mr. Fortin requires the assistance of his supervisor to focus on long-term projects. Provide thorough supervision and set daily goals for timely results. Provide encouragement along the way.
- He may place a high priority on personal time over work time. Reward his efforts to do whatever it takes to get the job done by providing opportunities for self-motivation during non-peak periods of work.
- Mr. Fortin may not respond well to the stress of strict deadlines. Maintain open communication during high stress periods and provide coaching in proven methods for handling stress.
- Paul is likely to lose focus on long-term projects. Provide ways for him to re-energize during periods of hard work. By organizing his time, he can allow short breaks to gather his motivational reserves and reflect on short-term accomplishments while maintaining a steady pace to meet daily goals.

Additional Considerations

On the Energy Level scale Mr. Fortin is below the designated Performance Model for this position. This suggests that his capacity to endure hard work is less than the position typically requires and that he could have a problem with the high demands of this job. Discussions with him should explore the possibility that for Mr. Fortin the energy required for this position may be above what he is willing to exert.

Assertiveness

Tendency to take charge of people and situations. Leads more than follows.

Behavioral Considerations

- Mr. Fortin has a limited need to be in charge or be in control of people and situations.
- He tends to be a good listener and to be more comfortable as a participant in a group rather than as the leader.
- Paul tends to prefer solutions that are low risk and that have proven effective in the past.
- Mr. Fortin is slow to be assertive and tends to be more of a follower than a leader.

Management Considerations

- On occasion, Mr. Fortin may be hesitant to provide input to the team. If necessary, encourage participation and spend time discussing his input. Reward him for these discussions.
- When locked in a conflict with a team member, he may need feedback concerning his tendency to submit in a high stress situation. Assertiveness training may instruct him on how conflict need not be stressful.
- Mr. Fortin will occasionally follow the group consensus despite personal disagreements. Be perceptive of this and encourage debate and expression of alternate viewpoints when possible. Reward team members who adequately express themselves and he may respond appropriately in time.
- Paul may occasionally back down from his position if confronted by others on his team. Take an active role as mediator, fostering his ability to express himself in conflicts.

Sociability

Tendency to be outgoing, people-oriented, and participate with others.

Behavioral Considerations

- Paul prefers democratic supervision in which two-way dialogue is encouraged.
- Mr. Fortin is moderately sociable. He tends to be aware of the necessity for keeping lines of communication open.
- He works to foster good relations across departments, maintains friendly contact and keeps up with the issues of common concern.
- Mr. Fortin is generally inclined to promote the benefits of teamwork and to involve the team in the discussion of how things will be done.

Management Considerations

- If you need to help Paul acquire a more business-like demeanor and interact more appropriately with others, build upon his present skills in stress management.
- Mr. Fortin may occasionally demonstrate a more casual demeanor than is expected. Guide him, as appropriate, by modeling the best manner for interacting with others in your organization.
- If it becomes necessary to facilitate his adaptation to the cultural climate of your group, provide structured tasks that require the appropriate level of business-like behavior. As Paul achieves success in this area, provide positive feedback and congratulate his efforts.
- In situations of high stress, Paul may become frustrated by the impersonal nature of some of the interactions involved in his dealings with others. Should it be necessary, provide instruction in developing a more business-like demeanor. Learning how to depersonalize interactions under stress is acquired through personal coaching and access to stress management training.

Manageability

Tendency to follow policies, accept external controls and supervision, and work within the rules.

Behavioral Considerations

- Mr. Fortin is highly cooperative, agreeable and quite willing to accept supervision and external controls.
- He is generally accepting of organizational constraints and restrictions.
- His respect for authority typically drives him to follow rules and abide by policies.
- Paul readily accepts authority and rules with a cooperative and friendly interpersonal style.

Management Considerations

- If it becomes necessary to encourage Paul to develop creative ways to solve problems and complete tasks, assign projects that require him to work outside of procedural norms. He may be uncomfortable in unstructured environments and you must foster a willingness to work outside the box. Provide positive feedback for his efforts to develop his confidence in this area.
- Paul may expect his supervisors to provide clearly stated guidelines for his behavior and task management. If necessary, encourage creativity and flexibility, possibly assigning him to a co-worker who shows more self-reliance.
- Paul may experience frustration if required to work in an unstructured environment. Encourage him to maintain open communication with you or other team members in order to foster his flexibility.
- Mr. Fortin demonstrates a preference for procedural methods and following strict policies. Should a more flexible approach be required, encourage it by assigning projects that rely on initiative and creative problem solving.

Attitude

Tendency to have a positive attitude regarding people and outcomes.

Behavioral Considerations

- He has a highly positive attitude regarding the intentions of others.
- His attitude is highly compatible with confronting interpersonal problems and frustrations.
- Mr. Fortin has a highly positive attitude regarding changes in policies and procedures.
- Mr. Fortin demonstrates a highly positive attitude concerning risk, change and unexpected challenges.

Management Considerations

- Paul appears to have a very high level of trust and optimism. Training in more prudent assessment of the motivations of others may help enhance his quality of work if needed.
- His faith in the results of some projects may tend to be overly optimistic allowing mistakes and unforeseen conflicts to occur. Training in logical and evaluative reasoning may provide Paul with the ability to use better judgment and forecast potential hazards more appropriately.
- Mr. Fortin has an optimistic regard for the motivations of others and may not be careful enough in his appraisal of others. If this becomes a problem, encourage discerning evaluative skills so that he may approach dealings with others with more prudence and confidence.
- Mr. Fortin may appear overly optimistic and positive about the motivations of others. If it becomes necessary to help develop a more realistic attitude concerning competition, encourage him to observe his more successful co-workers and offer an opportunity to discuss the differences with you.

Additional Considerations

On the Attitude scale Mr. Fortin is above the designated Performance Model for this position. This suggests that his tendency will be to express an overly optimistic attitude compared to successful individuals in this position. Discussions with him should explore the possibility that he will encounter frustration by the nature of this work.

Decisiveness

Uses available information to make decisions quickly.

Behavioral Considerations

- Mr. Fortin is capable of making timely decisions, but may hesitate when under stress.
- He can be a competent decision-maker when given enough time, but has difficulty taking decisive action under pressure.
- Paul tends to be cautious, preferring to wait for more information and advice before taking action.
- Mr. Fortin may be inclined to delay important decisions if he feels ill-prepared or disorganized.

Management Considerations

- If low decisiveness becomes an issue, build his enthusiasm to take action by example of your own capacity to act with a sense of urgency.
- To develop greater decisiveness, provide training in risk management as well as how to handle stress. This should improve his ability to make timely decisions.
- You may need to remind him of the value of taking risks if more timely decisions are required. Build this risk acceptance by providing low risk situations, then building the potential for risk as he adapts.
- Mr. Fortin tends to make decisions slowly and carefully. If more urgent action is needed, emphasize the importance of deadlines and making decisions without extended analysis.

Additional Considerations

On the Decisiveness scale Mr. Fortin is below the designated Performance Model for this position. This suggests that he may respond more deliberately when making decisions than the position typically requires and that he could lack a sense of urgency. Discussions with him might explore the possibility that Mr. Fortin may be frustrated with the need for fast-paced decision-making.

Accommodating

Tendency to be friendly, cooperative, agreeable. To be a team person.

Behavioral Considerations

- Mr. Fortin is committed to reducing conflict and establishing cooperation. He is comfortable working as part of a team and sharing ideas and information.
- Mr. Fortin is quick to accommodate others to avoid interpersonal conflict.
- He is highly motivated by an informal, positive and relaxed work environment.
- Paul tends to minimize serious problems and negative information. He will seek solutions which are acceptable to everyone.

Management Considerations

- Paul wishes to please others and may be frustrated by a less accommodating environment. If this becomes an issue, demonstrate the advantages of individual thinking, to help him understand that the willingness to challenge the ideas of others can be an important part of reaching team goals.
- His cooperative style may result in poor output if he goes along just to get along. If this becomes an issue, instill a competitive climate that rewards individual success, while remaining sensitive to his needs for a sense of belonging in the department.
- If it becomes necessary to confront his apparent hesitance to challenge the ideas of coworkers, reward his efforts to act aggressively. Publicly recognize his improvements when he stands up for his unique ideas or solutions.
- He may not respond well to an aggressive style of leadership. Training that educates him to stand up for his ideas may enhance his motivation to achieve individual success.

Additional Considerations

On the Accommodating scale Mr. Fortin is above the designated Performance Model for this position. This suggests that his willingness to productively challenge the opinions of others is less than the position typically requires and that this could cause a problem. Discussions with him should explore the possibility the position may require a more direct style than is usual for him.

Independence

Tendency to be self-reliant, self-directed, to take independent action, and make own decisions.

Behavioral Considerations

- Mr. Fortin is willing to function in a coordinated, interrelated way, participating in group decision making.
- Paul is usually satisfied with the status quo. He is comfortable working within the system.
- He generally prefers to follow established procedures.
- Mr. Fortin is comfortable with the normal restraints of organizational life.

Management Considerations

- Under the pressure of deadlines or other stresses, Mr. Fortin may seek out your guidance. Provide moderate supervision, but encourage self-reliance when appropriate. Possible responses may include offering your attention only after some effort is made by him to make his own decisions.
- There may be a tendency for Paul to hesitate when more resourceful action is required. Training in creative problem solving will allow him to perform in a more productive manner.
- Paul appreciates the structure of regular procedures and close supervision. To improve self-reliance, if desired, encourage him to create his own procedures for getting the job done.
- If it becomes necessary to counter his tendency to follow predictable patterns, provide a less structured work environment followed with support and feedback so as to foster greater independence.

Objective Judgment

The ability to think clearly and be objective in decision-making.

Behavioral Considerations

- Paul generally makes sensible, timely judgments.
- His judgment and decisions usually indicate generally consistent objective thinking capabilities.
- Mr. Fortin usually emphasizes logical deduction more than intuition in his thinking.
- Mr. Fortin typically uses judgment that reflects a balance of common sense and practical experience.

Management Considerations

- He requires feedback on his ability to gather information and make decisions based on a generalized impression of the data. If intuitive action is required, reward his efforts in being more subjective and following his "hunches."
- When under pressure to make decisions, Mr. Fortin may become frustrated by a possible lack of information available. Coach him on relying on intuition and experience when making decisions. Provide the opportunity to enhance his skills in subjective judgment.
- On occasion, Paul may be unwilling to risk a snap decision. Use motivation and encouragement to develop his confidence in taking risks and using his experience to arrive at a timely decision when necessary. Allow time for this confidence to grow.
- When decisions need to be made quickly, Mr. Fortin may spend too much time assessing all the facts. Provide instruction that allows him to make a generalized assessment of the information in a timely manner.

Interests

The Interests section assesses the relative interests between the six interest areas. The top three interests for Paul and the Performance Model are presented below in ranked order. The interests shared by both are circled.

Top Interests for Paul Fortin

Mechanical

Indicates interest in working with tools, equipment, and machinery.

People Service

Indicates interest in activities such as helping people and promoting the welfare of others.

Technical

Indicates interest in scientific activities, technical data, and research.

Top Interests for this Performance Model

Enterprising

Indicates interest in activities associated with persuading others, sales, and presenting ideas.

Financial/Administrative

Indicates interest in activities such as organizing information or business procedures.

People Service

 = Match

His results are focused in the Technical, Mechanical and People Service themes on the ProfileXT. This is the pattern of an individual who is most at home in an information or data-oriented environment. He is drawn toward technical and industrial work: anything that has to do with technical ideas, product or resource production, public service to some extent or methodology applied to data and information. His People Service orientation indicates that he likes to work with people in terms of service/consultation or individual development. Together, these interests signify motivation for utilizing technical information in an applied fashion for the betterment of others.

With Mechanical as his primary area of interest, Mr. Fortin is likely to seek out activities that involve practical objectives and vocational skills. If he can contribute to his work in this way, he is more likely to feel enthusiastic about the job at hand.

Secondly, he is motivated by the interaction with others that comes with service to an interpersonal cause as demonstrated by his interest in People Service activities. Helping others or providing them with services may help to energize him in what he does at work.

Finally, his interest in Technical activities rounds out his profile. Other interest areas may have more of an effect on his motivation, but his interest in Technical pursuits contributes.

Additional Considerations

Mr. Fortin does not show Enterprising activities as one of his top three interest areas. He may not find activities associated with this theme as motivating as those individuals who have been successful in this position. Mr. Fortin does not show Financial/Administrative activities as one of his top three interest areas. He may not find activities associated with this theme as motivating as those individuals who have been successful in this position.
