Part Two - Applicant's Attitudes

Introduction

This report provides information on the four Attitude Scales (Integrity, Substance Abuse, Reliability and Work Ethic). Each attitude is represented by a graph. The paragraph below each graph describes the applicant's attitude.

Section I - Attitude Scores

Integrity - Adherence to moral and ethical principles acceptable in the workplace

Ms. Stamp expresses strong respect for the property of others and recognizes that no rationalization makes a good excuse for theft.

Substance Abuse - Attitudes toward substance abuse in the workplace.

Ms. Stamp does not express any tolerance for drug use, with an unforgiving opinion concerning the consequences thereof.

Reliability - Attitudes concerning following procedures, dealing with authority figures and working positively with others in the workplace.

While Ms. Stamp is generally trusting of others, accepting their intentions at face value, dubious claims and assertions may raise doubts for her.

Work Ethic - Belief in the value of work and appropriate supervisory relationships in the workplace.

It appears that Karen understands the value of a strong work ethic, but not to the exclusion of the other priorities in her personal life.

Distortion for this assessment is within the acceptable range.

Section II - Summary Graph

The following scores for Ms. Stamp are summarized in this graph. Higher numbers suggest a lower risk factor.

Integrity

Adherence to moral and ethical principles acceptable in the workplace

Substance Abuse

Attitudes toward substance abuse in the workplace.

Reliability

Attitudes concerning following procedures, dealing with authority figures and working positively with others in the workplace.

Work Ethic

Belief in the value of work and appropriate supervisory relationships in the workplace.

Notice Regarding This Report

The results from this assessment should not be used as the sole determination whether to hire or not hire this individual. One must review previous work experience, the skills required by the job as well as personal references. When the safety of others must be considered, a background check, a drug screening and a physical from a medical doctor should all be considered. This assessment does not measure violent tendencies, psychotic conditions, sexual deviance or political opinions and cannot be used in identifying these conditions or to predict any associated behaviors.
