

Policy Name:	User Password Policy		
Implementation Date:	6/25/20	Owner:	Administration
Revision Date:		Depts:	All

1. Overview

Assigning unique user logins and requiring password protection is one of the primary safeguards employed to restrict access to the Johnstone Supply of CNY (JSCNY) network and the data stored within it to only authorized users. The purpose of this policy is to ensure all JSCNY resources and data receive adequate password protection.

2. Scope

This policy shall apply to all employees, contractors and affiliates of JSCNY, and shall govern acceptable password use on all systems that connect to JSCNY network.

3. Policy

Account Requirements

1. All JSCNY user accounts shall be secured by a password in accordance to this policy.
2. All mobile devices that connect to the company network must be secured with a password and/or biometric authentication and must be configured to lock after 3 minutes of inactivity.

Password Creation

1. Passwords must meet the following complexity rules:
 - Cannot contain the user's account name or parts of the user's full name that exceed two consecutive characters
 - Must be at least 10 characters in length
 - Must contain characters from three of the following four categories:
 - English uppercase characters (A through Z)
 - English lowercase characters (a through z)
 - Base 10 digits (0 through 9)
 - Non-alphabetic characters (for example, !, \$, #, %)

Password Aging

1. Passwords expire after 90 days.
2. Password history is enforced -the last 15 passwords can't be used again.
3. Complexity requirements are enforced when passwords are changed or created.

Password Protection

1. Passwords must not be shared with anyone and must not be sent electronically.
2. Passwords shall not be written down or physically stored anywhere in the office/branch.
3. When configuring password "hints," do not hint at the format of your password (e.g., "zip + middle name")

Enforcement

1. It is the responsibility of the end user to ensure enforcement with the above policy.

If you believe your password may have been compromised, please immediately report the incident to IconicIT (ROCSupport@iconicit.com)
