- **Copayments** are fixed dollar amounts (for example, \$15) you pay for covered health care, usually when you receive the service.
- **Coinsurance** is *your* share of the costs of a covered service, calculated as a percent of the **allowed amount** for the service. For example, if the plan's **allowed amount** for an overnight hospital stay is \$1,000, your **coinsurance** payment of 20% would be \$200. This may change if you haven't met your **deductible**.
- The amount the plan pays for covered services is based on the **allowed amount**. If an out-of-network **provider** charges more than the **allowed amount**, you may have to pay the difference. For example, if an out-of-network hospital charges \$1,500 for an overnight stay and the **allowed amount** is \$1,000, you may have to pay the \$500 difference. (This is called **balance billing**.)
- Your cost sharing does not depend on whether a provider is in a network.

About these Coverage Examples:

Your plan may vary from these examples.

These examples show how this plan might cover medical care in given situations. Use these examples to see, in general, how much financial reimbursement after insurance a sample participant might get. Actual health insurance coverage is based on an individual or group insurance plan. Reimbursement is based on current account balance and allowance.

Assumptions

These examples assume the participant has health insurance that covers all billed medical expenses with a \$2500 annual deductible and 20% coinsurance. These examples also assume the HRA balances are enough to cover eligible amounts. Consult your health insurance plan documentation and HRA eligible expenses to understand what your health insurance and actually HRA cover.

Hospital Bill Example

- Amount owed to providers: \$7,550
- Insurance paid: \$4,040
- Participant paid: \$ 3,510
- Eligible reimbursement: \$3,510

Sample care costs:

Hospital charges	\$7,540
------------------	---------

Patient paid:

Deductibles	\$2,500
Coinsurance	\$1,010
Eligible reimbursement	\$3,510

Pharmacy Receipt Example

- Total receipt: \$45
- Eligible medical costs: \$35
- Participant paid: \$45
- Eligible reimbursement : \$35

Sample receipt:

Prescription drug	\$30
Aspirin (non-prescription)	\$7
Bandages	\$5
Candy	\$3
Total bill at pharmacy	\$45
Eligible reimbursement	\$35

This is not a cost estimator.

Don't use these examples to estimate your actual costs under this plan or your health insurance plan. The actual care you receive will be different from these examples, and the cost of that care will also be different.
