I spoke with Lynn, they aren't real happy with Darrell right now as they are blaming him for not getting back with them until they reached out to Diakin. They are also looking for support for AHRI match-ups and NYSERDA. I offered to review the AHRI match-up on our web store with them, but got the impression Darrell didn't want me to meet with them unless he was involved. He (Darrell) didn't know how to use the match-up, so I reviewed it with him but I'm not sure how much he was paying attention versus how much he just wanted me to shut up and think that he know how to use it.

I'm trying to figure out a way to assist them with their problems with NYSERDA, but Darrell would rather we just tell them we can't help. I think we might be able leverage being able to help contractors in that regard Dalton aside, but will yield to the Regional Sales Manager.

Also, the monitors are 32".

Stephen,

Nice job! Do you believe this will fully satisfy Dalton?

Thanks,
Ken

Thanks, Tabitha, Derrick and Shantell for reaching out. What a team!!!

Thanks, too, Shantell, for your initial communication and for instructing me on how to do this SLA procedure...

Johnstone has been in touch with Dalton to resolve this to their satisfaction!!!

Have a great afternoon!

Subject: RE: [EXTERNAL] Wrong Adapter - Reimbursement Needed

Shantell and Derrick,

Please see Kim's message below. Is there something warranty is able to do to address the reimbursement inquiry? If not, is there something National Accounts is able to do?

Thanks,

Tabitha Marble

Subject: [EXTERNAL] Wrong Adapter - Reimbursement Needed

Hi Tony and Tabitha,

Please read the scenario below from a very good dealer of ours, Dalton Heating & Cooling Inc. They increased their business by 40% with us in 2019, and we definitely want to keep this account happy!!!

Although Johnstone is not responsible for what happened below, we are willing to pay Dalton \$100, half of what they are requesting, and would greatly appreciate if Daikin would consider paying \$100 as well.

Please let me know your thoughts as soon as possible, as this request came in before Thanksgiving, and we need to get this resolved!

From Dalton:

"We installed a Daikin FTXS24LVJU S/N 1511096318 1/8/16. We found a leak on the indoor coil. Ordered and received the indoor coil covered under warranty. The customer lives in Wolcott. The tech was installing the coil and found the adapter was the wrong size on the coil we received. Tech called Daikin support to make sure we received the correct coil – we did. Since it had the wrong adapter on it my tech had to drive from Wolcott to Johnstone to get the correct one. The adapter being a different size is not something we would have known. Darren is asking that we get some kind of reimbursement from Daikin. The tech drove an hour each way to get this adapter that we had no idea was needed and was at Johnstone about 25 minutes. About 2.5 hrs wasted on getting a part that Daikin did not have with the indoor coil. Darren would like to be reimbursed **\$200** so we don't have to pass any cost on to the customer. Any help in this matter would be greatly appreciated. Thank you."

Thanks in advance for your attention on this matter.
