

Corey Graham – Orders/Invoicing Checklist

1. Get name of caller, company, and phone#

A. If caller is "Harry Homeowner":

- a. Let them know we are an HVAC wholesaler with rules if we sell to a home owner, so we don't compete with our dealers. We will sell to them at full List Price with no returns or refunds.
- b. Remember to **ADD FREIGHT** to any item shipped and charge to homeowner's credit card as a Deposit.

B. If caller is a business owner with no account in our system:

- a. Ask for proof of business. Business card, business credit card, invoice with company name printed, dba papers or NYS incorporation papers.
- b. Ask for call back number and email address for quoting.
- c. Remember to **ADD FREIGHT** to any item shipped and charge to business owner's credit card as a Deposit.

2. Ask for part#, part description, model# of unit, or serial#.

3. Research part with JXI and/or Neuco for part or after-market part#.

4. **ALWAYS** check part cost in system before quoting price to customer. Make sure it is current before you calculate margin. Do not use average or old prices to quote price.

5. Calculate profit margin by dividing cost by margin calculation.

A. part cost divided by (100%-margin desired) ex. Cost divided by .70=30% profit margin

6. Ask customer for ship via info. Will Call or UPS ship. **Get PO#** if needed.

7. If order will be ordered from a vendor use Procurement Tab to arrange for shipping.

A. If shipping to established customer **ADD FREIGHT** to quoted price on the Freight line on Final page and ship as a drop ship to customer's shop. Verify address.

B. For all will call orders and drop ships get customer name and cell# and put into special instructions to help with lead time call backs and pick ups.

C. Go to Final page and change shipping to Prepaid and Bill

D. If Drop Ship order change PO type on the Header page.

8. **SAVE** order, Print and review order with Joe or George.
