

Health Screening Assessment Procedure for Supervisors

1. Each form contains four (4) health screening questionnaires.
2. Supervisors are to provide a copy of the form to every employee. This should be done digitally.
 - a. Employees are expected to treat this form as a master copy and are responsible for creating additional copies as needed.
3. Employees are required to completely fill out one questionnaire and sign it. This is to be done each day, every workday, and turned in to their supervisor. This can be done digitally, if a scanner is available.
 - a. Employees should expect to turn their assessments in to their supervisor each morning upon arrival to the branch.
 - b. If employees are working remotely, this should be the first thing before beginning the rest of their workday.
 - c. If an employee turns in a physical copy, it should be scanned and the original shredded or destroyed. Do NOT simply throw the physical copy in the trash.
4. As the supervisor, you are required to keep your team's questionnaires confidential and only you and the owner of the company should have access.
5. **IMPORTANT:** If any employee answers 'Yes' (Y) to any question, then this questionnaire must be forwarded to hr@johnstonevac-ny.com. The subject line of these assessments must say "Health Screening Assessment".
6. All other employee questionnaires should be retained for one week, then destroyed.
7. Supervisors must also fill out this assessment daily and forward their copy to hr@johnstonevac-ny.com. The subject line of these assessments must say "Health Screening Assessment".
8. Additional questions or comments from supervisors (only) should be addressed to the owner of the company.
