Introduction

Every employable person will match some positions better than other positions. This report provides information about Robert Brookins presented in a manner to help you understand how he matches with this selected position within your organization.

This report reflects the responses provided by Robert Brookins when he completed the **ProfileXT** assessment. The result for each characteristic is illustrated on a scale from 1 to 10. The darker area on each scale represents the best Performance Model for the position. The enlarged segment of the scale shows where Robert scored. If the enlarged segment is dark, Robert is in the Performance model. If it is lighter, he is not. Information about Robert is reported in these four categories:

- **Profile for Thinking Style** - Learning Index, Verbal Skill, Verbal Reasoning, Numerical Ability, and Numeric Reasoning.
- **Profile for Behavioral Traits** – Energy Level, Assertiveness, Sociability, Manageability, Attitude, Decisiveness, Accommodating, Independence, and Objective Judgment.
- **Profile for Interests** - Enterprising, Financial/Administrative, People Service, Technical, Mechanical, and Creative.
- **The Total Person & Management Considerations** - Description of Robert as a person and how to most effectively maximize his potential.

Note: Additional considerations are displayed when Robert falls outside your Performance Model.

If Robert is being considered for this position and his results fall outside the Performance Model, you should print the companion Interview Guide for Robert. This Guide provides appropriate interview questions for each instance where Robert is outside the model. These interview questions will guide the interviewer in exploring important areas where information from the interview will effectively assist the interviewer in making an informed decision about his placement.

Please consult the User's Guide for additional information on using these results when working with Robert. As discussed in the User's Guide for this product, the results from this or any assessment should never make up more than a third of the final decision in placements.

Profile for Thinking Style

When viewing the scales on this page and the next, the darker shading represents the Job Performance Model for the role of Outside Sales. The larger box indicates the individual's score.

Learning Index

An index of expected learning, reasoning, and problem solving potential.

Verbal Skill

A measure of verbal skill through vocabulary.

Verbal Reasoning

Using words as a basis in reasoning and problem solving.

Numerical Ability

A measure of numeric calculation ability.

Numeric Reasoning

Using numbers as a basis in reasoning and problem solving.

Profile for Behavioral Traits

Energy Level

Tendency to display endurance and capacity for a fast pace.

Assertiveness

Tendency to take charge of people and situations. Leads more than follows.

Sociability

Tendency to be outgoing, people-oriented, and participate with others.

Manageability

Tendency to follow policies, accept external controls and supervision, and work within the rules.

Attitude

Tendency to have a positive attitude regarding people and outcomes.

Decisiveness

Uses available information to make decisions quickly.

Accommodating

Tendency to be friendly, cooperative, agreeable. To be a team person.

Independence

Tendency to be self-reliant, self-directed, to take independent action, and make own decisions.

Objective Judgment

The ability to think clearly and be objective in decision-making.

Distortion for this assessment is within the acceptable range.

Profile for Interests

The Interests section assesses the relative interests between the six interest areas: Enterprising, Financial/Administrative, People Service, Technical, Mechanical, and Creative. For the Job Match Performance Model of Outside Sales, the top three interests, presented in order, are Enterprising, Mechanical, and Creative. The top three interests for Robert are Mechanical, Technical, and Financial/Administrative. Mr. Brookins shares one of these interest areas: Mechanical.

Top Interests for Robert Brookins

Mechanical

Indicates interest in working with tools, equipment, and machinery.

Technical

Indicates interest in scientific activities, technical data, and research.

Financial/Administrative

Indicates interest in activities such as organizing information or business procedures.

Top Interests for this Performance Model

Enterprising

Indicates interest in activities associated with persuading others, sales, and presenting ideas.

Mechanical

Creative

Indicates interest in activities using imagination, creativity, and original sales ideas.

 = Match

The Total Person

This part of the report discusses the results for Robert Brookins on each of the scales in all three sections. The Behavioral and Management Considerations for each scale relate to his scores without reference to the Outside Sales model. If his score falls outside the model for a particular scale, Additional Considerations will be listed as suggestions to help Robert Brookins adapt his behavior to better fit the job.

Learning Index

An index of expected learning, reasoning, and problem solving potential.

Behavioral Considerations

- His overall learning index is average and suggests a good potential for quickly learning new information.
- Upon completing a training program, Mr. Brookins should pick up new concepts easily when appropriately presented.
- He is generally adaptive in a variety of training situations.
- Overall, Mr. Brookins may be expected to complete a typical training program with success.

Management Considerations

- Mr. Brookins acquires and understands general information, but may find highly complex data or instruction challenging. His ability to conceptualize and utilize ideas put forth in training is high average, but not significantly beyond the norm.
- Require consistent performance by Mr. Brookins in order to avoid boredom on his part. Robert will respond best to challenges in both the training and daily work experiences.
- During fundamental training, use creative participation to maintain his motivation, which he may lose if not particularly challenged.
- While capable of meeting the challenge of advanced training, Mr. Brookins may become frustrated during the more fundamental portions. Create enthusiasm during these phases by directing as much responsibility to participate as is possible.

Verbal Skill

A measure of verbal skill through vocabulary.

Behavioral Considerations

- Robert can build on his basic foundation as the particular communication skills required in performing the job become familiar.
- He has a sound understanding of basic communication processes.
- Mr. Brookins shows strong potential for developing his existing verbal skills more fully.
- Mr. Brookins should be competent in understanding written and verbal data.

Management Considerations

- While capable of assimilating most verbal information well, provide Robert with feedback concerning his ability to make that information understandable to workers of all verbal skill levels.
- Although capable of expressing himself with an advanced vocabulary, suggest actively listening to others so that he may communicate at the appropriate level.
- If he appears frustrated with the level of verbal ability of the majority of his peers, encourage a more facilitative attitude that adapts to the needs of others.
- Mr. Brookins has a high level of verbal skills. Monitor his performance in this area, giving feedback and examples of adaptive communication styles that speak to the level of others.

Verbal Reasoning

Using words as a basis in reasoning and problem solving.

Behavioral Considerations

- Mr. Brookins may need more time than many to assimilate new information of a verbal nature.
- Robert may not process thoughts and ideas as effectively as others with stronger verbal reasoning capabilities.
- Mr. Brookins may experience some difficulty grasping complex oral or written directions.
- He probably takes more time when he strives for exactness from verbal information.

Management Considerations

- Using complex words and verbal information may require deliberation and consideration on his part. Observe his effectiveness in solving problems and offer assistance when necessary.
- To help overcome any difficulties in verbal problem solving, maintain close observation to be certain that verbal information is clearly understood by Mr. Brookins.
- Mr. Brookins requires additional time to process verbal information. You should communicate with him in a direct and structured manner. Review information and ask for clarity in his communications.
- In some situations, especially with complex verbal information, Mr. Brookins may require additional time to make decisions. Offer supervision and provide explanations of the information as needed.

Additional Considerations

Mr. Brookins achieved a Verbal Reasoning score outside the designated profile for this Performance Model. This suggests his ability to use words as a basis in reasoning is different than the position typically requires but he may have no problem with the ability to perform in this area. Discussions with him should explore whether the requirements of the position may be at an inappropriate level for Mr. Brookins.

Numerical Ability

A measure of numeric calculation ability.

Behavioral Considerations

- He excels in a job that requires the accurate calculation of mathematical procedures in order to make correct decisions.
- Robert is quick in determining correct mathematical solutions to problems.
- His computations using business-related numbers should be sharp and on target.
- Mr. Brookins is capable of precise numerical accounting even under the pressure of strict time constraints.

Management Considerations

- Highly proficient in numerical calculation, Mr. Brookins should have no difficulty in his duties; but observe the potential for downward trends in motivation, if he requires a challenge in this area.
- He may express frustration with those who are not as proficient with numerical data. Pay attention to his feelings, but relate the necessity of being diligent and understanding of others.
- He is proficient in calculating complex figures. However, Robert may require instruction on efficiently communicating clear meaning to those with less of a grasp of this kind of information.
- When Mr. Brookins is under stress it may be necessary to observe his patience with peers who have a lower numerical ability level.

Additional Considerations

On the Numerical Ability scale Mr. Brookins is above the designated Performance Model for this position. This suggests that his computation of data is more proficient than the position typically requires and that he may not be sufficiently challenged to maintain his interest and/or level of motivation.

Numeric Reasoning

Using numbers as a basis in reasoning and problem solving.

Behavioral Considerations

- He may prefer calculators for more complex mathematical analysis.
- Mr. Brookins should be able to complete the numeric reasoning parts of the training process with little difficulty.
- Robert should not require additional time or repetition to accomplish numerical analysis.
- His ability to assimilate information that requires reasoning with numbers is sufficient at a general level.

Management Considerations

- Mr. Brookins is more proficient in processing numerical information than most people. He may experience frustration if not sufficiently challenged, and may be willing to take on extra duties that allow him to practice this skill.
- To avoid miscommunications when Robert is expressing numerical information, coach him on proper communication techniques that emphasize a common level of expression as needed.
- Robert is adept at seeing the relationship between numerical data and decision making. He may however, require extra challenges if not provided by the job to avoid a loss of motivation.
- Mr. Brookins is capable of assimilating data to make decisions, but may occasionally be frustrated by a lack of challenge in this area. Address frustrations and provide ways to challenge his abilities.

Energy Level

Tendency to display endurance and capacity for a fast pace.

Behavioral Considerations

- He is moderately energetic; his work pace will show few peaks and valleys.
- Mr. Brookins is capable of taking action in a timely manner.
- Mr. Brookins generally focuses on timely results.
- Mr. Brookins typically acts with a sense of urgency under routine conditions.

Management Considerations

- Mr. Brookins may occasionally appear less motivated when the hours of work increase due to deadlines and the demands of production. Keep open communication and listen to his needs, providing opportunities, when possible, for him to gather his reserves. Congratulate his efforts to stay focused.
- Reward his extra efforts often at first, eventually increasing the time between pats on the back. If his motivation or productivity drops, maintain rewards at a constant rate until he is back on track.
- Robert demonstrates somewhat low motivational intensity. Provide a structured environment in which to work and maintain short-term goals. Help him monitor his effectiveness during long-term projects.
- When the workload reaches extremes, you may notice an increase in his stress. Coach him on effective stress management techniques and provide occasional rewards for efficient and timely results.

Assertiveness

Tendency to take charge of people and situations. Leads more than follows.

Behavioral Considerations

- Mr. Brookins is slow to be assertive and tends to be more of a follower than a leader.
- Robert tends to prefer solutions that are low risk and that have proven effective in the past.
- He tends to be a good listener and to be more comfortable as a participant in a group rather than as the leader.
- Mr. Brookins has a limited need to be in charge or be in control of people and situations.

Management Considerations

- When locked in a conflict with a team member, he may need feedback concerning his tendency to submit in a high stress situation. Assertiveness training may instruct him on how conflict need not be stressful.
- On occasion, Mr. Brookins may be hesitant to provide input to the team. If necessary, encourage participation and spend time discussing his input. Reward him for these discussions.
- Robert may occasionally back down from his position if confronted by others on his team. Take an active role as mediator, fostering his ability to express himself in conflicts.
- Mr. Brookins will occasionally follow the group consensus despite personal disagreements. Be perceptive of this and encourage debate and expression of alternate viewpoints when possible. Reward team members who adequately express themselves and he may respond appropriately in time.

Additional Considerations

Mr. Brookins achieved an Assertiveness score that is outside the designated Performance Model for this position. This suggests that his willingness to take charge may not be what the position typically requires. Discussions with him should explore his potential for Assertiveness training.

Sociability

Tendency to be outgoing, people-oriented, and participate with others.

Behavioral Considerations

- He works to foster good relations across departments, maintains friendly contact and keeps up with the issues of common concern.
- Mr. Brookins is generally inclined to promote the benefits of teamwork and to involve the team in the discussion of how things will be done.
- Mr. Brookins is moderately sociable. He tends to be aware of the necessity for keeping lines of communication open.
- Robert prefers democratic supervision in which two-way dialogue is encouraged.

Management Considerations

- If it becomes necessary to facilitate his adaptation to the cultural climate of your group, provide structured tasks that require the appropriate level of business-like behavior. As Robert achieves success in this area, provide positive feedback and congratulate his efforts.
- If you need to help Robert acquire a more business-like demeanor and interact more appropriately with others, build upon his present skills in stress management.
- In situations of high stress, Robert may become frustrated by the impersonal nature of some of the interactions involved in his dealings with others. Should it be necessary, provide instruction in developing a more business-like demeanor. Learning how to depersonalize interactions under stress is acquired through personal coaching and access to stress management training.
- Mr. Brookins may occasionally demonstrate a more casual demeanor than is expected. Guide him, as appropriate, by modeling the best manner for interacting with others in your organization.

Manageability

Tendency to follow policies, accept external controls and supervision, and work within the rules.

Behavioral Considerations

- Mr. Brookins relates to most directives in a generally cooperative manner. He may resent high-pressure leadership.
- Robert demonstrates a generally cooperative interpersonal style. He can usually work well with others.
- Mr. Brookins relates to authority in a respectful and cooperative manner in most routine situations. He may occasionally express a need for more personal freedom.
- He is generally comfortable regarding authority and rules, exhibiting a cooperative interpersonal style.

Management Considerations

- On occasion, Mr. Brookins may be more willing than others to voice dissatisfaction with procedures. Encourage him to speak to you, but guide him to be selective about his complaints. Focus on his intentions to bring problems to you, facilitating productive communication.
- Redirecting Mr. Brookins when he occasionally appears frustrated with the procedures of the workplace may help him to focus and avoid the distraction of complaining.
- If the monotony of everyday tasks appears mildly frustrating to Robert, encourage him to take a break, but do not overuse this method; do not consistently reinforce complaints with break-time.
- You may observe that Robert sometimes engages in mild complaining about procedure. If this occurs, it is often best to ignore these comments, redirecting him to focus on the task at hand.

Additional Considerations

Mr. Brookins achieved a Manageability score that is outside the designated Performance Model for this position. This suggests that his response to external control is typically different than the position requires but that he may have no problem with the responsibility to comply with authority. Discussions with him should explore his willingness to adapt to the needs of this position and his potential for frustration.

Attitude

Tendency to have a positive attitude regarding people and outcomes.

Behavioral Considerations

- He may be less easily misled than others.
- Robert may tend to be more vigilant and on-guard than others.
- Mr. Brookins may be slow to show a positive attitude regarding risk, changes in policies and guidelines, and unexpected challenges.
- Mr. Brookins may be inclined to assume a negative position and become critical of others.

Management Considerations

- Mr. Brookins demonstrates a tendency to be guarded when interacting with others. If necessary, build his basic trust with informal group activities to ease his doubt about the motivations of others. These activities can be as simple as lunchtime office meetings and informal discussions.
- Robert may express doubts about the outcome of some projects, appearing pessimistic. While maintaining an empathetic manner, confront him on alternative solutions and how he may contribute to the group's success.
- Robert may demonstrate a distrustful attitude about his co-workers, customers, or his work. If necessary, provide him with an appropriate amount of time to discuss his feelings, but redirect him by displaying a calm and cooperative demeanor. Stress the necessity to focus on the tasks at hand and to accept responsibility for his own work.
- He may have a tendency to blame others for outcomes that are his responsibility. Should this become an issue, suggest discussion for a later time to address his negative attitude, then give feedback on his performance and how to make positive steps toward more productive behavior.

Additional Considerations

On the Attitude scale Mr. Brookins is below the designated Performance Model for this position. This suggests that his general response to others will be pessimistic compared to the most successful individuals in this position. Discussions with him should explore the possibility that for Mr. Brookins, the position may be overly challenging and could lead to frustration and a reduction in his level of performance.

Decisiveness

Uses available information to make decisions quickly.

Behavioral Considerations

- Robert stands firm on most decisions and is not inclined to back down once a decision is made.
- Mr. Brookins is capable of responding to critical situations and solving problems in a timely manner.
- He is not inclined to delay important decisions.
- Mr. Brookins is typically decisive and inclined to act. He can be effective in positions which require timely results.

Management Considerations

- If Robert shows a tendency to make rash decisions, stress the importance of caution to avoid unnecessary risk. A balance of timely decision-making can be made with deliberate and thoughtful analysis.
- Robert may occasionally appear too spontaneous in his decision-making. If unnecessary risk is to be avoided, counsel him on the need for cautious and deliberate decisions.
- It is important that the concept of patience in decision-making be stressed to Mr. Brookins. If this is necessary, ask for deliberate and analytical processes in his decisions.
- Mr. Brookins may require training in how to be more deliberate in decision-making if he shows a tendency to be rash. Emphasize the importance of analyzing information more thoroughly so that each decision can be more objective.

Accommodating

Tendency to be friendly, cooperative, agreeable. To be a team person.

Behavioral Considerations

- Robert can be slower than others to avoid arguments, disagreements and/or conflict.
- He is usually agreeable, cooperative and good natured, but does not go along just to get along.
- Mr. Brookins can stand his ground whenever someone disagrees with him.
- While Mr. Brookins tends to be agreeable, he will not be afraid to question ideas if necessary.

Management Considerations

- If he becomes frustrated by working with those who hold opinions contrary to his own, provide individual goals that satisfy the group's needs while allowing him the room to feel comfortable. He is somewhat skilled in cooperating with others, so foster this ability and reward his efforts to grow in this area.
- Under the stress of meeting goals in a timely manner, Mr. Brookins may become less cooperative, tending to conflict with his team. Reinforce a cooperative style and reward his ability to seek out the resources of the team.
- Conflict may play a role in his performance when Robert is feeling the stress of deadlines. Redirect his frustration, providing feedback that helps him to realize the effect of his attitude on others.
- On occasion, Mr. Brookins may choose to compete with his team in an unproductive manner. If this occurs, make yourself available to listen to his frustrations and make authoritative decisions with regard to bringing the team together.

Independence

Tendency to be self-reliant, self-directed, to take independent action, and make own decisions.

Behavioral Considerations

- Robert appreciates some opportunity to challenge the status quo and to bring about change.
- Mr. Brookins has a moderate need for freedom from controls, close supervision and organizational constraints.
- He is usually comfortable handling new problems independently.
- Mr. Brookins prefers to carry out important tasks with minimal supervision. He can be counted on to meet his commitments without close supervision.

Management Considerations

- There may be situations, particularly under stress, in which Mr. Brookins may break from procedure to use methods more adapted to his personal style. If this is inappropriate, direct him to remain focused on procedural requirements while allowing personal expression in areas that do not warrant as much structure.
- In moments of uncertainty, Robert may express a desire to try new methods or procedures. Reinforce his creativity but stress the value of correct procedural methods as appropriate.
- Mr. Brookins may demonstrate frustration with some of the traditional methods of the workplace. Listen impartially to his viewpoint, but stress your concerns over the practical need for change in light of your position as a supervisor. Recognition of his ideas is productive, but maintain a position of seeing the big picture involved.
- Robert may desire the opportunity to use innovative methods in his duties. Allow as much flexibility as is appropriate for your organization while maintaining correct procedure as you see fit.

Objective Judgment

The ability to think clearly and be objective in decision-making.

Behavioral Considerations

- Robert generally makes sensible, timely judgments.
- His judgment and decisions usually indicate generally consistent objective thinking capabilities.
- Mr. Brookins usually emphasizes logical deduction more than intuition in his thinking.
- Mr. Brookins typically uses judgment that reflects a balance of common sense and practical experience.

Management Considerations

- He requires feedback on his ability to gather information and make decisions based on a generalized impression of the data. If intuitive action is required, reward his efforts in being more subjective and following his "hunches."
- When decisions need to be made quickly, Mr. Brookins may spend too much time assessing all the facts. Provide instruction that allows him to make a generalized assessment of the information in a timely manner.
- When under pressure to make decisions, Mr. Brookins may become frustrated by a possible lack of information available. Coach him on relying on intuition and experience when making decisions. Provide the opportunity to enhance his skills in subjective judgment.
- On occasion, Robert may be unwilling to risk a snap decision. Use motivation and encouragement to develop his confidence in taking risks and using his experience to arrive at a timely decision when necessary. Allow time for this confidence to grow.

Interests

The Interests section assesses the relative interests between the six interest areas. The top three interests for Robert and the Performance Model are presented below in ranked order. The interests shared by both are circled.

Top Interests for Robert Brookins

Mechanical

Indicates interest in working with tools, equipment, and machinery.

Technical

Indicates interest in scientific activities, technical data, and research.

Financial/Administrative

Indicates interest in activities such as organizing information or business procedures.

Top Interests for this Performance Model

Enterprising

Indicates interest in activities associated with persuading others, sales, and presenting ideas.

Mechanical

Creative

Indicates interest in activities using imagination, creativity, and original sales ideas.

 = Match

Mr. Brookins may be attracted to positions that allow him to work with details, systems and methods for standard business practices, especially in the industrial/technical arena. His interest focus lies among the Technical, Financial and Mechanical themes on the ProfileXT. This is a common pattern for people who enjoy operations responsibilities and who enjoy the detailed, technical aspects of solving problems, setting up systems and establishing methods in the technical/industrial world.

With Mechanical as his primary area of interest, Mr. Brookins is likely to seek out activities that involve practical objectives and vocational skills. If he can contribute to his work in this way, he is more likely to feel enthusiastic about the job at hand.

Secondly, he is motivated by the Technical aspects of a job. Working with data and drawing conclusions from them helps him maintain a positive level of motivation on the job.

Finally, his interest in Financial/Administrative activities rounds out his profile. While organizing information or keeping records and balancing budgets may not be the central focus of his motivation, these activities play a part in his interest profile.

Additional Considerations

Mr. Brookins does not show Enterprising activities as one of his top three interest areas. He may not find activities associated with this theme as motivating as those individuals who have been successful in this position. Mr. Brookins does not show Creative activities as one of his top three interest areas. He may not find activities associated with this theme as motivating as those individuals who have been successful in this position.
