The first step of any journey is the most important.

IT GIVES YOU A SENSE OF DIRECTION AND STARTS YOU TOWARD A DESTINATION.

The same is true of your journey to retirement. By taking part in your employer's retirement plan, you're taking an important first step.

Whatever your retirement destination, you are one step closer to reaching your goal when you enroll in the Plan.

Get connected with the ADP Mobile Solutions App

The ADP Mobile Solutions App is where your retirement journey begins. The app allows you to quickly access and manage your retirement plan account. Through the app, you can:

- Enroll and make account changes
- Check account balances
- Research plan investments and request investment changes
- Receive important notifications about your retirement plan

Download the ADP Mobile Solutions App for quick and easy access to your retirement plan.

ADP also offers a mobile website for employees with unsupported devices. Visit <https://mobile.adp.com> or scan the QR code from your camera or QR code reader.

ADP, Inc. owns and operates the ADP.com website and ADP Mobile Solutions App.

Take time to plan for your own financial journey.

HERE'S WHY.

To live comfortably in retirement, many financial professionals estimate you will need between 70% and 80% of your pre-retirement income. Social Security will cover approximately 1/3 of that amount.¹ The rest of the income you will need in retirement will come from **you**.

Invest in yourself and save for retirement

Your company's retirement plan is one of the few programs designed to help bridge the gap between what Social Security will provide and what you will need at retirement. The contributions to your retirement plan will come out of each paycheck automatically...so you do not even need to think about it.

Make the most of your contributions

You can choose to contribute to the Plan with before-tax contributions, and/or Roth 401(k) contributions. The chart below outlines the differences between the two types of contributions. For more information on additional contribution types and limits, please review the **Contribution** section in Your Plan's Highlights.

BEFORE-TAX CONTRIBUTIONS		ROTH 401(K) CONTRIBUTIONS
Employee contributions	Made before taxes are deducted from your paycheck.	Made after taxes are deducted from your paycheck.
Account growth (earnings)	Tax-deferred until distribution.	Tax-free at distribution if the distribution is qualified.
Federal Income Tax	Reduces current taxable income by contribution amount. Taxes are paid at withdrawal on both contributions and earnings.	Contribution is taxable in current year. No taxes are paid on qualified distributions.
Distributions	Available according to Plan rules.	Tax-free provided you had your Roth 401(k) account for at least five years and you are at least 59½ or are disabled or deceased.

High cost of inflation

Inflation is the increased price of goods and services. You know what inflation has done to the cost of some of your favorite items, but did you know it also impacts other products and services, such as health care? As a result of inflation, health-care costs are projected to rise by 4.22% annually for the foreseeable future.

As shown in the chart below, an average 66-year-old couple will spend an average of 48% of their Social Security income on health care. As inflation continues to rise, a 55-year-old couple, will need 57% of their Social Security income to cover health-care costs. A 45-year-old couple will spend 63% of their Social Security income on health-care and at 87, they will need 72% of their income to cover health-related expenses.

Make saving for retirement a priority

Each generation defines retirement differently. Whatever your definition, when thinking about retirement, on average 76% of each generation think they will have a harder time achieving financial security in retirement than their parents.

The chart to the right shows the average individual retirement plan savings contribution percentage by generation.

SAVING BY GENERATION³

Even \$1 a day can have an impact

Did you know that 34% of Americans today are spending more on coffee than they are saving for the future?⁴ Let's take a look at what happens if you saved \$1 a day or \$7 a week... **in 30 years, you could have \$30,650 in savings.**

\$7 SAVED PER WEEK⁵

⁴ Source: Fool.com, One-Third of Americans Spend More on Coffee Than on Investing.

⁵ You should evaluate your ability to continue saving in the event of a prolonged market decline, unexpected expenses, or an unforeseeable emergency. For illustrative purposes only. Assumes a starting balance of \$0, a weekly contribution of \$7, an annual rate of return of 6%, compounded daily, the reinvestment of earning and no withdrawals or loans. Results are not meant to represent past or future performance of any specific investment vehicle. Investment return and principal value will fluctuate and when redeemed the investment may be worth more or less than its original cost.

Waiting could cost you time and money

STILL NOT CONVINCED YOU NEED TO SAVE FOR RETIREMENT NOW?

LET'S LOOK AT WHAT HAPPENS IF YOU WAITED 10 YEARS BEFORE YOU STARTED SAVING \$7 A WEEK.

Waiting could cost you \$16,567

For illustrative purposes only, results may vary. The investments are not reflective of any specific fund in your plan. Assumes a starting balance of \$0, a weekly contribution of \$7, an annual rate of return of 6%, compounded daily, the reinvestment of earnings and no withdrawals or loans. A plan of systematic savings does not ensure a profit or prevent a loss in a declining market.

Choose a path to complete your financial journey

Several roads may lead to the same destination. The one you choose depends on what feels right for you. Planning for your retirement is much the same — you are investing toward a goal.

Your investment decisions will be based on:

- Lifestyle and personality
- Risk tolerance
- Health considerations
- Age you want to retire

You can use the Personal Investor Profile questionnaire as a guideline to help you determine your investor profile and risk tolerance.

To view and take the questionnaire scan the QR code from your camera or QR code reader or [click here](#).

Your financial journey

As part of your path, you can choose to invest in the target date fund based on the date you want to retire or you can choose to create and manage your own retirement portfolio yourself using the investments in the Plan.

Target Date Funds

Each target date fund is managed to a specific retirement year identified in the fund name. Each fund is made up of a mixed asset allocation of stocks and bonds. As shown in the chart below, the mix will be automatically reallocated over time as the fund approaches the target retirement date and will continue to shift asset classes even after the fund retirement date.

Sample asset allocations are for illustrative purposes only. Target Date Funds (also called Retirement Date Funds, or Lifestyle Funds) are designed to target a year in which an investor may withdraw funds for retirement or other purposes. Investments in target date funds are subject to the risks of their underlying funds, and asset allocations are subject to change over time in accordance with each fund's prospectus. An investment in or retirement income from a target date portfolio is not guaranteed at any time, including on or after the target date. An investment in a target date portfolio does not eliminate the need for investors to decide — before investing and periodically thereafter — whether the portfolio fits their financial situation. For more information, please refer to the prospectus.

Text Enroll 401k to 72408

Eligibility

Invest in yourself and take advantage of your retirement savings plan benefit.

- You will be automatically enrolled into the Plan. A voluntary elective contribution of 3% will be deducted from your pay before-taxes and deposited in your retirement account in the Plan's default fund. For more information, including important dates, please refer to your Welcome Letter.

If you decide now is not the right time to start saving, you can decline enrollment through My.ADP.com, Voice-Response System or ADP Mobile Solutions App. You can always change your mind and enroll later.

- 21 years of age on the next plan entry date
- You must have completed 12 month(s) of service by the next plan entry date
- You must have completed 1000 hours in 12 month(s) of service by the next plan entry date

Contributions

You can take an active part in your financial wellness by contributing as much as you can to your retirement account. Your contribution option(s) are listed below:

- **Before-tax:** 1% to 90%
- **Roth 401(k):** 1% to 90%
- You have the option of electing a flat dollar amount to contribute each pay period.
- If you are considered a Highly Compensated Employee, the total maximum amount you may contribute to the Plan may be limited.
- The total dollar amount you may contribute to the Plan is \$20,500.
- **Catch-up Contributions:** If you're 50 years of age or older, you may also make a catch-up contribution in excess of Internal Revenue Code or Plan Limits. This year, you can save an additional \$6,500.

Your Plan's Highlights

Rollovers

Rollovers from a previous qualified retirement plan or a Rollover Individual Retirement Account (IRA) are accepted into the Plan, even if you have not yet met the Plan's age and service requirements. Additional information is located in the **Rollover Form**.

Employer contributions

- Your company will match 100% of your salary deferrals up to the first 3% of your eligible compensation, plus 50% of your salary deferrals up to the next 2% of your eligible compensation.
- Your company may make a profit-sharing contribution each year.
- There may be special requirements for you to receive your company contributions.

Vesting

- Your contributions and any amounts you rolled into the Plan, adjusted for gains and losses, are always 100% yours.
- Your company contribution account vests according to the following schedule:

Years of service:	1	2	3	4	5	6	7
Match % vested:	Immediately vested						

Distribution options

Planning for your retirement is a long-term commitment and the money you have saved should be considered "untouchable" and used only as income in retirement. In the event of a financial need, you have the following distribution options available to you:

Loans

- Number of outstanding loans allowed at any one time: 1.
- Minimum loan amount: \$500
- Maximum repayment period: Generally, 5 years, unless for the purchase of a primary residence
- Interest rate: Prime + 2%
- A fee may apply if you take a loan from your retirement plan account. Fee information can be obtained by logging into your account > Plan Information > Participant Fee Disclosure > Individual Expenses

Withdrawals while employed

- Rollover
- Age 59½
- Hardship

Withdrawals after employment

You may receive a distribution of the vested portion of some or all of your retirement account balances in the Plan for the following reasons:

- Termination of employment
- Normal retirement
- Disability
- Death

Special rules exist for each type of withdrawal. You may be subject to a 10% penalty in addition to federal and state taxes if you withdraw money before age 59½. For more information, review the **Special Tax Notice** located in the retirement plan website.

ACCOUNT RESOURCES

You can access your retirement savings account anytime¹, make changes and perform transaction through:

- ADP Mobile Solutions App
- My.ADP.com
- 1-800-695-7526

➔ **QUESTIONS?** Representatives are available Monday through Friday, 8am – 9pm, Eastern Time.

The ADP Mobile Solutions App and the website allow you to:

- Check account balances
- Enroll and make account changes
- Research plan investments and request investment changes
- Access retirement planning tools and calculators
- Get prospectuses

Quarterly Account Statement

Stay informed about your progress. Your statement has details about your account, investment performance, and account activity for the period and is located in the My Account section once you have logged into your account.

Beneficiary Designation

Naming a beneficiary for your retirement account is important. In the event of your death, your account will be passed to the person(s) you name.

If you are single or married and want to name your spouse as your sole primary beneficiary, you can designate your beneficiary online.

If you are married and want to designate someone other than your spouse or significant other you must print the form available online and follow the instructions to complete it.

You will need the names and birth dates of your beneficiary(ies) and each Social Security Number. If you do not have all of this information, you can always log into your account and add it later.

CONGRATULATIONS ON TAKING THE FIRST STEP TO INVEST IN YOURSELF AND YOUR RETIREMENT. ONCE ENROLLED IN THE PLAN, BE SURE TO TAKE ADVANTAGE OF SEVERAL FEATURES, SUCH AS:

Save Smart®

This is a plan feature that allows you to automatically increase your retirement plan contribution percentage. You can elect a 1%, 2% or 3% increase to your before-tax contribution. The increase will go into effect each year, on the date you choose.

You should evaluate your ability to continue saving in the event of a prolonged market decline, unexpected expenses, or an unforeseeable emergency.

Automatic Account Rebalancing

This is an account tool that allows you to keep your current investment mix (balance by investment fund) consistent with your current investment strategy for new contributions. Once you have made an investment allocation election for new contributions, Automatic Account Rebalancing will rebalance your account based on your preference: quarterly, semi-annually, or annually.

Keep in mind that rebalancing your funds, switching out of an investment, when the market is doing poorly means locking in the loss.

* The Morningstar Category classifies a fund based on its investment style as measured by underlying portfolio holdings (portfolio statistics and compositions over the past three years). If the fund is new and has no portfolio, Morningstar estimates where it will fall before assigning a more permanent category. When necessary, Morningstar may change a category assignment based on current information. Morningstar Associates, LLC has designated the Specific Fund Category for each mutual fund. The Specific Fund Category for any non-mutual fund has been obtained from the fund or one of its affiliates (if they have provided one). The Specific Fund Category identifies Funds based on their actual investment styles as measured by their underlying portfolio holdings (portfolio statistics and compositions over the past three years). CITs are not tracked in the Morningstar database and are non-publicly traded mutual funds. They are a vehicle in which assets of qualified plans, generally sponsored by unrelated employers, are pooled for investment purposes. These funds are typically managed by trust departments of banking institutions.

** QTR End or Quarter-end returns are for the most recent quarter-end performance. The periods are 3/31, 6/30, 9/30 and 12/31.

+ An expense ratio is a fund's annual operating expenses expressed as a percentage of average net assets and includes management fees, administrative fees, and any marketing and distribution fees. Waivers or reimbursements, if any, are contractual and the fee represents the fund's annualized aggregate asset charges based on the fund's investment in underlying funds as disclosed in the current prospectus. Expense ratios directly reduce returns to investors. The expense ratio typically includes the following types of fees: accounting, administrator, advisor, auditor, board of directors, custodial, distribution (12b-1), legal, organizational, professional, registration, shareholder reporting, sub-advisor, and transfer agency. The expense ratio does not reflect the fund's brokerage costs or any investor sales charges. For publicly traded mutual funds, the net prospectus expense ratio is collected from the fund's most recent prospectus and provided by Morningstar. This is the percentage of fund assets paid for operating expenses and management fees. In contrast to the net expense ratio, the gross expense ratio does not reflect any fee waivers in effect during the time period. Morningstar pulls the prospectus gross expense ratio from the fund's most recent prospectus. CITs expense ratios are provided by the investment managers.

Investment Risks

All investments involve risk. For more complete information about the specific risks associated with the investments in the Plan, please refer to the fund's prospectus or the CITs information statement.

Fixed Income Funds: Bonds and other debt obligations are affected by changes in interest rates and the creditworthiness of their issuers. High-yield, low rated (junk) bonds generally have greater price swings and greater default risks.

Money Market/Stable Value Funds: You could lose money by investing in the Money Market/Stable Value fund. Although the fund seeks to preserve the value of your investment at \$1.00 per share, it cannot guarantee it will do so. The fund may impose a fee upon sale of the shares or may temporarily suspend your ability to sell the shares if the fund's liquidity falls below required minimums because of market conditions or other factors. An investment in the fund is not insured or guaranteed by the Federal Deposit Insurance Corporation (FDIC) or any other government agency. The fund's sponsor has no legal obligation to provide financial support to the fund, and you should not expect that the sponsor will provide financial support to the fund at any time.

Bond Funds: The value of bonds changes in response to changes in economic conditions, interest rates, and the creditworthiness of individual issuers. Bonds can lose value as interest rates rise, and an investor can lose principal. Bonds and other debt obligations are affected by changes in interest rates and the creditworthiness of their issuers. High-yield, low rated (junk) bonds generally have greater price swings and greater default risks.

Growth Funds: Growth Style Risk- over time, a growth investing style may go in and out of favor causing the fund to sometimes underperform other equity funds that use different investing styles.

Value Funds: Value Style Risk- value investing style may go in and out of favor causing the fund to sometimes underperform other equity funds that use different investing styles.

Mid and Small Cap Funds: Mid Cap risk-stocks of mid-cap companies may be more volatile and less liquid than larger company stocks. Investing in micro and small companies involves greater risks not associated with investing in more established companies, such as business risk, significant stock price fluctuations and illiquidity.

Target Date Funds: Target Date Funds (also called Retirement Date Funds, or Lifestyle Funds) are designed to target a year in which an investor could begin to withdraw funds for retirement or other purposes. Investments in target date funds are subject to the risks of their underlying funds, and asset allocations are subject to change over time in accordance with each fund's prospectus. An investment in or retirement income from a target date portfolio is not guaranteed at any time, including on or after the target date. An investment in a target date portfolio does not eliminate the need for investors to decide — before investing and periodically thereafter — whether the portfolio fits their financial situation. For more information, please refer to the prospectus, Declaration of Trust or other disclosure information.

Foreign/World Funds: Foreign investments involve greater risks and potential rewards than US investments, and investment return and principal value of the fund will fluctuate with market conditions, currencies, and economic, social and political climates of the countries where the fund invests. Emerging markets involve heightened risks related to the same factors, in addition to those associated with their relatively small size and lesser liquidity.

Sector Funds: Sector investment options may be more susceptible to factors affecting their sector and more volatile than those that invest in many different sectors. The S&P 500 Index is an unmanaged index containing common stocks of 500 industrial, transportation, utility and financial companies, regarded as generally representative of the U.S. stock market. Although it is not possible to invest in an index, sector funds are designed to track a given index that may be available to an investor.

Please keep in mind that mutual fund shares are not insured by the FDIC. Not deposits or obligations of the institution and are not guaranteed by the institution. Subject to investment risks, including possible loss of the principal amount invested. **All investments involve risk, including loss of principal, and there is no guarantee of profits. Investors should carefully consider their objectives, risk tolerance, and time horizon before investing. There is no assurance that any fund will meet its stated objective.**

Vanguard Federal Money Market Fund - Investor Class

STRATEGY: The fund invests primarily in high-quality, short-term money market instruments. At least 80% of the fund's assets are invested in securities issued by the U.S. government and its agencies and instrumentalities. Although these securities are high-quality, most of the securities held by the fund are neither guaranteed by the United States Treasury nor supported by the full faith and credit of the U.S. government. To be considered high-quality, a security generally must be rated in one of the two highest credit-quality categories for short-term securities by at least two nationally recognized rating services (or by one, if only one rating service has rated the security). The fund will maintain a dollar-weighted average maturity of 60 days or less.

Lord Abbett Short Duration Income Fund - Class I

STRATEGY: The investment seeks a high level of income consistent with preservation of capital. The fund invests primarily in various types of short duration debt (or fixed income) securities. It invests at least 65% of its net assets in investment grade debt securities including corporate debt securities of U.S. issuers; corporate debt securities of non-U.S. (including emerging market) issuers that are denominated in U.S. dollars; mortgage backed, mortgage-related, and other asset-backed securities; and securities issued or guaranteed by the U.S. government, its agencies and instrumentalities; and inflation-linked investments.

MFS Government Securities Fund - Class R6

STRATEGY: The investment seeks total return with an emphasis on current income, but also considering capital appreciation. The fund normally invests at least 80% of its net assets in U.S. government securities. U.S. government securities include mortgage-backed securities and other types of securitized instruments issued or guaranteed by the U.S. Treasury, by an agency or instrumentality of the U.S. government, or by a U.S. government-sponsored entity. It generally invests substantially all of its assets in investment grade quality debt instruments. The fund may invest a significant percentage of the fund's assets in a single issuer or a small number of issuers.

JPMorgan Core Plus Bond Fund - Class I

STRATEGY: The investment seeks a high level of current income by investing primarily in a diversified portfolio of high-, medium- and low-grade debt securities. The fund will invest at least 80% of its assets in bonds. Under normal conditions, at least 70% of its total assets must be invested in securities that, at the time of purchase, are rated investment grade. The fund's investments in below investment grade securities or the unrated equivalent including below investment grade foreign securities will not, under normal circumstances, exceed more than 30% of the fund's total assets. Its average weighted maturity will ordinarily range between five and twenty years.

BlackRock Inflation Protected Bond Portfolio - Class K

STRATEGY: The investment seeks to maximize real return, consistent with preservation of real capital and prudent investment management. The fund invests at least 80% of its assets in inflation-indexed bonds of varying maturities issued by the U.S. and non-U.S. governments, their agencies or instrumentalities, and U.S. and non-U.S. corporations. It may invest up to 20% of its assets in non-investment grade bonds or securities of emerging market issuers. The fund maintains an average portfolio duration that is within 40% of the duration of the Bloomberg Barclays U.S. Treasury Inflation Protected Securities Index (the benchmark).

T Rowe Price Global Multi Sector Bond Fund - Class I

STRATEGY: The investment seeks high income and some capital appreciation. The fund will invest at least 80% of its net assets (including any borrowings for investment purposes) in bonds. It may invest in a variety of holdings in an effort to enhance income and achieve some capital growth. Under normal conditions, the fund will invest at least 40% of its net assets (unless foreign market conditions are not deemed favorable by the investment adviser, in which case the fund would invest at least 30% of its net assets) in securities issued by governments or companies that are organized or located outside the U.S. or doing a substantial amount of business outside the U.S.

Vanguard Target Retirement 2015 Fund - Investor Class

STRATEGY: The investment seeks to provide capital appreciation and current income consistent with its current asset allocation. The fund invests in a mix of Vanguard mutual funds according to an asset allocation strategy designed for investors planning to retire and leave the workforce in or within a few years of 2015 (the target year). The fund's asset allocation will become more conservative over time, meaning that the percentage of assets allocated to stocks will decrease while the percentage of assets allocated to bonds and other fixed income investments will increase.

Vanguard Target Retirement 2020 Fund - Investor Class

STRATEGY: The investment seeks to provide capital appreciation and current income consistent with its current asset allocation. The fund invests in a mix of Vanguard mutual funds according to an asset allocation strategy designed for investors planning to retire and leave the workforce in or within a few years of 2020 (the target year). The fund's asset allocation will become more conservative over time, meaning that the percentage of assets allocated to stocks will decrease while the percentage of assets allocated to bonds and other fixed income investments will increase.

Vanguard Target Retirement 2065 Fund - Investor Class

STRATEGY: The investment seeks to provide capital appreciation and current income consistent with its current asset allocation. The fund invests in a mix of Vanguard mutual funds according to an asset allocation strategy designed for investors planning to retire and leave the workforce in or within a few years of 2065 (the target year). The fund's asset allocation will become more conservative over time, meaning that the percentage of assets allocated to stocks will decrease while the percentage of assets allocated to bonds and other fixed income investments will increase.

Fidelity Advisor Balanced Fund - Class I

STRATEGY: The investment seeks both income and growth of capital. The fund invests approximately 60% of assets in stocks and other equity securities and the remainder in bonds and other debt securities, including lower-quality debt securities (those of less than investment-grade quality, also referred to as high yield debt securities or junk bonds), when its outlook is neutral. It invests at least 25% of total assets in fixed-income senior securities.

Vanguard Equity Income Fund - Admiral Class

STRATEGY: The investment seeks to provide an above-average level of current income and reasonable long-term capital appreciation. The fund invests mainly in common stocks of mid-size and large companies whose stocks typically pay above-average levels of dividend income and are, in the opinion of the purchasing advisor, undervalued relative to similar stocks. In addition, the advisors generally look for companies that they believe are committed to paying dividends consistently. Under normal circumstances, it will invest at least 80% of its assets in equity securities. The fund uses multiple investment advisors.

Schwab S&P 500 Index Fund

STRATEGY: The investment seeks to track the total return of the S&P 500 Index. The fund generally invests at least 80% of its net assets (including, for this purpose, any borrowings for investment purposes) in these stocks; typically, the actual percentage is considerably higher. It generally will seek to replicate the performance of the index by giving the same weight to a given stock as the index does.

T. Rowe Price Blue Chip Growth Fund - Investor Class

STRATEGY: The investment seeks long-term capital growth; income is a secondary objective. The fund will normally invest at least 80% of its net assets (including any borrowings for investment purposes) in the common stocks of large and medium-sized blue chip growth companies. It focuses on companies with leading market positions, seasoned management, and strong financial fundamentals. The fund is non-diversified.

Victory Sycamore Established Value Fund - Class I

STRATEGY: The investment seeks long-term capital growth by investing primarily in common stocks. Under normal circumstances, at least 80% of the fund's assets will be invested in equity securities of companies with market capitalizations, at the time of purchase, within the range of companies comprising the Russell MidCap Value Index. It may invest a portion of its assets in equity securities of foreign companies traded in the U.S., including American Depositary Receipts and Global Depositary Receipts (ADRs and GDRs).

Columbia Mid Cap Index Fund - Institutional 2 Class

STRATEGY: The investment seeks total return before fees and expenses that corresponds to the total return of the Standard & Poor's (S&P) MidCap 400 Index. The fund invests at least 80% of its net assets (including the amount of any borrowings for investment purposes) in common stocks that comprise the S&P MidCap 400 Index. In seeking to match the performance of the index, the Investment Manager attempts to allocate the fund's assets among common stocks in approximately the same weightings as the index. The manager attempts to achieve at least a 95% correlation between the performance of the index and the fund's investment results, before fees and expenses.

All registered investment options are available by prospectus only. Since Collective Investment Trust funds (CITs) are exempt from SEC registration, a prospectus is not available. All investments involve risk, including loss of principal, and there is no guarantee of profits. Investors should carefully consider their objectives, risk tolerance, and time horizon before investing. MFS New Discovery Value Fund - Class R6

STRATEGY: The investment seeks capital appreciation. The fund normally invests its assets in equity securities. Equity securities include common stocks, equity interests in real estate investment trusts (REITs), and other securities that represent an ownership interest (or right to acquire an ownership interest) in a company or other issuer. The advisor focuses on investing the fund's assets in the stocks of companies it believes are undervalued compared to their perceived worth. MFS may invest the fund's assets in foreign securities.

Vanguard Small Cap Index Fund - Admiral Class

STRATEGY: The investment seeks to track the performance of the CRSP US Small Cap Index that measures the investment return of small-capitalization stocks. The fund employs an indexing investment approach designed to track the performance of the CRSP US Small Cap Index, a broadly diversified index of stocks of small U.S. companies. The advisor attempts to replicate the target index by investing all, or substantially all, of its assets in the stocks that make up the index, holding each stock in approximately the same proportion as its weighting in the index.

American Funds EuroPacific Growth Fund - Class R6

STRATEGY: The investment seeks long-term growth of capital. The fund invests primarily in common stocks of issuers in Europe and the Pacific Basin that the investment adviser believes have the potential for growth. Growth stocks are stocks that the investment adviser believes have the potential for above-average capital appreciation. It normally will invest at least 80% of its net assets in securities of issuers in Europe and the Pacific Basin. The fund may invest a portion of its assets in common stocks and other securities of companies in emerging markets.

Invesco Developing Markets Fund - Class Y

STRATEGY: The investment seeks capital appreciation. The fund mainly invests in common stocks of issuers in developing and emerging markets throughout the world and at times it may invest up to 100% of its total assets in foreign securities. Under normal market conditions, it will invest at least 80% of its net assets, plus borrowings for investment purposes, in equity securities of issuers whose principal activities are in a developing market, i.e. are in a developing market or are economically tied to a developing market country, and in derivatives and other instruments that have economic characteristics similar to such securities.

DFA Real Estate Securities Portfolio - Institutional Class

STRATEGY: The investment seeks long-term capital appreciation. The fund, using a market capitalization weighted approach, purchases readily marketable equity securities of companies whose principal activities include ownership, management, development, construction, or sale of residential, commercial or industrial real estate. It will principally invest in equity securities of companies in certain real estate investment trusts and companies engaged in residential construction and firms, except partnerships, whose principal business is to develop commercial property.

ADDITIONAL DISCLOSURES

© 2020 Morningstar, Inc. All Rights Reserved. The information contained herein: (1) is proprietary to Morningstar and/or its content providers; (2) may not be copied or distributed; and (3) is not warranted to be accurate, complete or timely. Neither Morningstar nor its content providers are responsible for any damages or losses arising from any use of this information. Past performance is no guarantee of future results.

Expressed in percentage terms, Morningstar's calculation of total return is determined each month by taking the change in monthly net asset value, reinvesting all income and capital - gains distributions during that month, and dividing by the starting NAV. Reinvestments are made using the actual reinvestment NAV, and daily payoffs are reinvested monthly.

The Investment Strategy is provided by Morningstar® for all publicly traded mutual funds. Investment Strategy information for money market funds and certain other types of funds are provided by the respective fund manager.

Investment Type Definitions:

The investment types are four broad investment categories; each fund is categorized based on where the fund is listed in Morningstar, Inc.'s investment category. Income: money market, stable value, and fixed income investment funds. Growth and Income: balanced and lifestyle investment funds. Growth: large and mid capitalization investment funds. Aggressive Growth: small capitalization, specialty, foreign stock and world stock investment funds.

The Morningstar Category identifies funds based on their actual investment styles as measured by their underlying portfolio holdings (portfolio statistics and compositions over the past three years). If the fund is new and has no portfolio, Morningstar estimates where it will fall before assigning a more permanent category. When necessary, Morningstar may change a category assignment based on current information.

I ROLLOVER INSTRUCTIONS

This form is used to invest prior plan money into your current retirement plan. Generally, you can roll over assets from these types of plans: Qualified Plans (Including 401(k) Plans), SIMPLE IRAs in existence for at least 2 years, Conduit and Traditional IRAs (taxable non-Roth distributions only), 457(b) plans, and 403(b) tax sheltered annuity contracts.

Please note: if available, your existing Investment Allocations will be used. Otherwise monies will be invested in the Plan's Default Fund.

STEP 1. Check (✓) the appropriate box to identify the source of this Rollover.

STEP 2. Request a certified or bank check for your rollover mailed to your home address. **Please include the last four digits of your Social Security Number and Plan Number on the check made payable to Reliance Trust Company.** Personal checks will be returned.

STEP 3. Gather Required Rollover Documentation

All rollovers must be from an eligible retirement plan source. Attach **one** of the following in support of this:

- Statement of distribution
- Most recent account statement

STEP 4. Read the acknowledgment, and then sign and date the form.

Note: If you have not previously enrolled in the Plan, you must complete a Beneficiary Form and give it to your Plan Administrator. **Do not send to ADP.**

II ROLLOVER AMOUNT/SOURCE

A. This rollover is a distribution from one of the following eligible rollover sources: (Select one type of plan or account.)

- ☐ Prior Employer Plan
- ☐ Individual Retirement Account (IRA)

If Qualified Plan, is this rollover from a related employer? (Most rollovers are from plans maintained by an *unrelated employer*.)

- ☐ an Unrelated Employer ☐ a Related Employer

Note: If you do not check a box, we will understand you have certified that the rollover is from an unrelated employer.

NOTE: Rollovers of Roth 401(k) monies may only be made via direct rollover and may not be rolled over from an IRA. Please refer to the distribution statement provided by your prior 401(k) provider for this information.

III PARTICIPANT ACKNOWLEDGMENT, ROLLOVER INVESTMENT DIRECTION AND SIGNATURE

I have read and understand the Summary Plan Description, agree to the Plan provisions, received the Fee Disclosure Statement and reviewed and understand the fund prospectuses/descriptions, including the funds' objectives, risks, expenses and charges. By signing this form, I certify that:

- I am rolling over these funds within 60 days of the date I received them from an eligible employer plan or IRA (not applicable to direct rollovers).
- The rollover is from the source indicated and has not been combined with any money that would disqualify it.
- No portion of this rollover contribution represents amounts received as a hardship distribution, required minimum distribution or periodic payment from another employer plan.
- I have attached the required documentation.

How your money will be invested: I understand that if I do not have a plan account one will be established for my rollover contribution and invested in the plan default fund. Once my account has been established, I will be mailed my account access information and can make investment allocation changes through the plan website or Voice Response System. If I already have a plan account established, I direct that my rollover contribution be invested in accordance with my investment election on file.

Many investment companies have excessive trading and/or redemption fee policies for certain investments to eliminate or reduce the negative effects of short-term trading and market timing. When possible, ADP Retirement Services implements the investment company's market timing policy (as disclosed in the prospectus). However, in some circumstances ADP may impose a different policy than listed in the prospectus at the request or with the agreement of a fund company. Your plan investment options may be subject to these policies. See your plan website for your plan's fund policies and additional information.
