What's in this report?

RESULTS SUMMARY	PERFORMANCE MODEL	INTERVIEW QUESTIONS
Candidate's results from the assessment compared to the Performance Model	Range of scores typical for success in the position, with scale and job fit interpretation	Series of personalized questions based on the candidate's fit to the Performance Model

What is a Performance Model?

The Performance Model for Advertising/Training Manager provides the recommended range of skills and behaviors for the job. This report compares Rob Conrad's assessment results to the range of scores to show how well he might fit the position. The Performance Model includes:

THINKING STYLE

- Thinking Style is the ability to process information.
- It includes problem-solving, communication, interaction, and learning skills.
- Results are illustrated on scales ranging from 1 to 10.
- A higher score is not necessarily the best indicator of on-the-job performance.

BEHAVIORAL TRAITS

- Behavioral Traits are commonly observed actions that help define who someone is.
- Each scale is defined by two opposing, but equally valuable, end points.
- One side of the continuum is not better than the other.

INTERESTS

- This section may indicate a person's motivation and potential satisfaction with various jobs.
- These are ranked in order from the person's highest- to lowest-scoring interest.

Distortion was not detected in this report. What does that mean?

Some candidates may answer in a way that is socially desirable or to make themselves look better, rather than respond candidly and risk disapproval. Based on his assessment results, it appears that **Rob answered candidly**.
