INTRODUCTION

This report is intended to help you choose the candidate(s) who may be the best fit for the position of **Warehouse Specialist**. The Performance Model for this position reflects the attributes typical of high performers in this position. **Dana Watkins's** personalized information will be compared to the Performance Model, giving you a detailed understanding of how well-suited she may be to this role.

What's in this report?

RESULTS SUMMARY	PERFORMANCE MODEL	INTERVIEW QUESTIONS
Candidate's results from the assessment compared to the Performance Model	Range of scores typical for success in the position, with scale and job fit interpretation	Series of personalized questions based on the candidate's fit to the Performance Model

What is a Performance Model?

The Performance Model for Warehouse Specialist provides the recommended range of skills and behaviors for the job. This report compares Dana Watkins's assessment results to the range of scores to show how well she might fit the position. The Performance Model includes:

THINKING STYLE

- Thinking Style is the ability to process information.
- It includes problem-solving, communication, interaction, and learning skills.
- Results are illustrated on scales ranging from 1 to 10.
- A higher score is not necessarily the best indicator of on-the-job performance.

BEHAVIORAL TRAITS

- Behavioral Traits are commonly observed actions that help define who someone is.
- Each scale is defined by two opposing, but equally valuable, end points.
- One side of the continuum is not better than the other.

INTERESTS

- This section may indicate a person's motivation and potential satisfaction with various jobs.
- These are ranked in order from the person's highest- to lowest-scoring interest.

Distortion was not detected in this report. What does that mean?

Some candidates may answer in a way that is socially desirable or to make themselves look better, rather than respond candidly and risk disapproval. Based on her assessment results, it appears that **Dana answered candidly**.

PERFORMANCE MODEL

For Warehouse Specialist

The highlighted boxes represent the **Warehouse Specialist** Performance Model, reflecting the specific requirements for this position. Dana's placement is labeled with her initials.

THINKING STYLE

Composite Score

A reflection of overall learning, reasoning, and problem-solving potential

Ideal Candidate: Assimilates information with minimal confusion and can handle more complex information processing.

Dana: Fits the Performance Model.

Verbal Skill

A measure of vocabulary

Ideal Candidate: Can process fairly complex language and has a vocabulary in the above average range.

Dana: May experience frustration when communicating with less verbally adept coworkers.

Verbal Reasoning

Using words for reasoning and problem solving

Ideal Candidate: Capable of analyzing and understanding the nuances contained in complex communication.

Dana: Fits the Performance Model.

Numerical Ability

A measure of numerical calculation ability

Ideal Candidate: Utilizes basic calculations effectively, but prefers to avoid complex data or sophisticated numerical analysis.

Dana: Fits the Performance Model.

Numeric Reasoning

Using numbers as a basis in reasoning and problem solving

Ideal Candidate: Able to make decisions based on basic numerical data and understands uncomplicated charts and graphs.

Dana: Analyzes numerical data at a more advanced level than the position requires, suggesting that she may have unused talents in this area.

BEHAVIORAL TRAITS**Pace**

Overall rate of task completion

Ideal Candidate: Responds well to time constraints and generally works at a brisk pace.

Dana: Isn't quite as fast-paced as the position demands for successful performance and may, at times, struggle to keep up.

Assertiveness

Expression of opinions and need for control

Ideal Candidate: Little need to have influence over others and, instead, is content to follow direction in an amicable environment.

Dana: May wish to assert a stronger presence than is typical for success in this position.

Sociability

Desire for interaction with others

Ideal Candidate: Generally outgoing and capable of working effectively in a team environment.

Dana: Fits the Performance Model.

Conformity

Attitude on policies and supervision

Ideal Candidate: Responds well to a structured environment and does not mind close supervision.

Dana: Fits the Performance Model.

Outlook

Anticipation of outcomes and motives

Ideal Candidate: Demonstrates a generally positive attitude, yet will express doubt on occasion.

Dana: Less optimistic and trusting than others who typically perform best in this position.

Decisiveness

Use of speed and caution to make decisions

Ideal Candidate: Balances timeliness and deliberation, but is comfortable making quick decisions when necessary.

Dana: May require additional time or appear indecisive when making decisions.

Accommodation

Inclination to tend to others' needs and ideas

Ideal Candidate: Expresses his or her point of view, but is very attentive to the needs of others.

Dana: Fits the Performance Model.

Independence

Level of preference
for instruction and
guidance

Ideal Candidate: Demonstrates some level of independence, but functions best when offered specific instructions and a moderate level of guidance.

Dana: Fits the Performance Model.

Judgment

Basis for forming
opinions and making
decisions

Ideal Candidate: Bases decisions mostly on observable behaviors and data.

Dana: May be less objective when making decisions than people who have been successful in this position.

INTERESTS

The assessment measures six possible Interests, which appear below from Dana's highest- to lowest-scoring interest. The **top three Interests for the Performance Model** are noted. Two-way and three-way ties are indicated if present.

This list of interests is obviously not exhaustive, and because interests are often something that can be satisfied outside of work, they make up only 20% of the candidate's overall job fit score (Thinking and Behavioral each make up 40% of the overall score). Still, a person's interests can sometimes provide insight into how easily motivated he or she will be concerning different tasks, and how much enjoyment he or she may find in a particular role.

DANA'S ORDER OF INTERESTS

- Ordered from her highest- to lowest-scoring interest
- Warehouse Specialist Performance Model Interests are indicated
- Ties are indicated if present

TIED

Mechanical [PERFORMANCE MODEL INTEREST]

A Mechanical interest suggests the enjoyment of building and repairing things and working with machinery or tools. Individuals with this interest may like tasks that involve using their hands, being outdoors, and/or breaking a sweat.

Technical

A Technical interest suggests the enjoyment of learning technical material, interpreting complex information, and solving abstract problems. Individuals with this interest may enjoy working with numbers, data, and/or computer programs.

Enterprising

An Enterprising interest suggests the enjoyment of leadership, presenting ideas, and persuading others. Individuals with this interest may desire responsibility and exercise initiative, ambition, and resourcefulness.

Financial/Admin [PERFORMANCE MODEL INTEREST]

A Financial/Admin interest suggests the enjoyment of working with numbers, organizing information, and office routines such as record-keeping and completing paperwork. It could indicate an eye for detail and a desire for accuracy.

People Service [PERFORMANCE MODEL INTEREST]

A People Service interest suggests the enjoyment of collaboration, compromise, and helping others. It may indicate a strong sense of empathy and support and a knack for bringing people together.

Creative

A Creative interest suggests the enjoyment of imaginative and artistic activities. It often involves personal expression, emphasis on aesthetics, and novel ways of solving problems, producing ideas, and designing new things.

INTERVIEW QUESTIONS

Dana Watkins & Warehouse Specialist

CHALLENGE AREAS FOR THIS JOB FIT

Below you will find what could be Dana's top challenge areas for this position. The selection is based on how Dana scored on the assessment compared to the specific requirements for Warehouse Specialist.

Decisiveness

MORE DELIBERATE THAN PERFORMANCE MODEL

She tends to carefully analyze situations in order to make informed decisions.

→ Listen for: her ability to make decisions more quickly when circumstances warrant it.

1. Describe a time when you waited too long to make a decision. What were the consequences? What would you do differently?
2. Would you describe your decision-making style as bold or cautious? Give an example of when it would have been better to take the opposite approach.

Numeric Reasoning

ABOVE PERFORMANCE MODEL

She can efficiently base her decisions on numerical data.

→ Listen for: how successfully she communicates numerical concepts, or if she gets frustrated when working with people with different numerical skill levels.

3. If you analyze numerical data and find that it calls for a change—such as reallocating resources or adjusting a process—how would you convince others that the change is needed?
4. Tell me about a time you had to use mathematical concepts or reasoning to solve a problem. How did you communicate your message for those with different levels of training or skill?

Assertiveness

MORE FORCEFUL THAN PERFORMANCE MODEL

She tends to be fairly comfortable sticking up for her opinions and needs.

→ Listen for: how willing she is to soften her level of assertiveness or defer to others when a situation calls for it.

5. When working with a team, how do you get buy-in from your colleagues if you think you have a good idea?
6. Describe a recent situation where you felt it was best to defer to others or not take action. What was the result?

AREAS OF STRENGTH FOR THIS JOB FIT

Next you will find what could be Dana's top areas of strength for this position. The selection is based on how Dana scored on the assessment compared to the specific requirements for Warehouse Specialist.

Conformity

FITS PERFORMANCE MODEL

She tends to be cooperative and usually works within the rules.

→ **Listen for: whether she recognizes when to push back and when to comply, given the situation.**

7. Tell me about a time when your supervisor made a decision and you disagreed with it. How would colleagues describe your reaction to the situation?
8. Describe a situation where you had to push repeatedly for your opinion. Would you handle the situation differently today? Why or why not?

Accommodation

FITS PERFORMANCE MODEL

She tends to be fairly agreeable and willing to go along with the group.

→ **Listen for: how she determines when to state her own position and when to compromise.**

9. Which is more important in the workplace—disagreement or compromise? Why? Give me examples from your own experience.
10. How do you typically resolve a conflict between you and a colleague?

Verbal Reasoning

FITS PERFORMANCE MODEL

She can easily analyze complex verbal information and make reliable interpretations.

→ **Listen for: how she assesses and applies information for different settings, tasks, and people.**

11. Describe a situation in which you received instructions that seemed to lack key steps or were incomplete. What did you do to fix the situation and make sure that you were completing the task correctly?
12. Tell me about a time when you discovered there had been a miscommunication. How did you figure out there was a problem, and what did you do to resolve the issue?

QUESTIONS FOR REMAINING SCALES

You will find suggested interview questions for the remaining scales below.

Verbal Skill

ABOVE PERFORMANCE MODEL

She communicates at a high level and can easily understand complex instructions.

→ Listen for: how much effort she uses to adjust her communication style to the needs of the audience.

13. Tell me about a time when you realized you were speaking at a more advanced level than a colleague could understand. What did you do to communicate your message more clearly?
14. Describe a situation where you had to explain a technical or complex subject to others. What steps did you take to ensure you adequately explained the key points?

Numerical Ability

FITS PERFORMANCE MODEL

She can use basic calculations, but may not be as comfortable with complex data.

→ Listen for: her comfort with numerical calculations, including using new methods of calculating data.

15. Describe a situation where you had to consider different types of numerical information. How did you ensure that you understood and correctly applied the most important aspects of the data?
16. How long does it take for you to feel comfortable using new mathematical processes at work?

Pace

MORE STEADY THAN PERFORMANCE MODEL

She tends to be good with routine and works at a steady to moderate pace.

→ Listen for: how she uses different strategies for negotiating workload, due dates, and resources.

17. Tell me about a time when you had a lot of work and additional assignments just kept coming. How did you handle the workload?
18. Describe the last time you worked on an assignment that demanded a lot of initiative and self-motivation. What was challenging and what did you enjoy about this experience?

Sociability**FITS PERFORMANCE MODEL**

She tends to be fairly extraverted and people-oriented.

➡ **Look for: how she recognizes when to be more or less outgoing to fit the needs of the situation.**

19. Describe a time when you had to act more or less outgoing than is natural for you. What did you do to adapt?
20. Do you prefer to work with others on assignments or complete tasks by yourself? Tell me about an assignment or project that best fits your work style.

Outlook**MORE SKEPTICAL THAN PERFORMANCE MODEL**

She tends to be fairly skeptical and often looks for the evidence to back up a claim.

➡ **Listen for: how willing she is to give others the benefit of the doubt.**

21. Describe a recent brainstorming or problem-solving session you had with your colleagues. What are the advantages and disadvantages of such sessions?
22. How do you rebuild trust that has been lost in a relationship? Give me an example from your experience.

Independence**FITS PERFORMANCE MODEL**

She tends to seek support and easily accepts supervision.

➡ **Listen for: the level of guidance she prefers and whether she has been satisfied with guidance in the past.**

23. For work you've done in the past, when has following a very structured procedure been beneficial? When has it been better to develop your own approach?
24. Describe an example of the ideal level of guidance you received at the start of a new assignment. Tell me about a time when you were frustrated with the level of guidance.

Judgment**MORE INTUITIVE THAN PERFORMANCE MODEL**

She tends to balance objective information and her instincts to make decisions.

→ **Listen for: her level of frustration when asked to disregard her instincts and base a decision solely on facts.**

25. Describe a time when you had to put aside your strong sense of the right direction and make a decision based purely on facts. What happened, and how did you feel about it?
26. What are the benefits of basing decisions on gut instincts? When might this approach be problematic?
