Notice

The following report shows the results generated from the answers given by this candidate when they took this assessment. Although they provide valuable information to help you make better hiring decisions, they should never be used as the only basis for deciding to hire or not hire this candidate. You should always take into consideration the candidate's previous work experience, education obtained, skills needed to perform the job, personal and business references as well as information obtained during the interview process. If the job could potentially affect the safety of others, it is important to also take into consideration other screening information such as drug & alcohol tests, background checks, Doctor's physicals, etc.

Detail Report

Below you will find a brief description of the meaning of each section, and then the score and a description of how that applicant scored on the given section and what that score means about the applicant.

Candidness

Score **31**

Description: Candidness measures the degree to which the individual is likely to be candid and accurate in his/her responses and is therefore not trying to outsmart the test in an effort to present him/herself in a more favorable light.

About the Applicant: This individual's Candidness score indicates that he/she have likely answered most of the test questions in a candid and accurate manner, but at times, he/she may have tried to elevate their scores by answering the questions in a more socially desirable manner. Some of the individual's responses may not accurately represent his/her true attitudes or behaviors. However, it is normal for some individuals to attempt to present themselves in a favorable light during the interview/testing process. While research shows that moderate candidness scores do not necessarily invalidate the test results, and, in fact, are very common during the testing and interview process, it may be a good idea to probe a little deeper into some of the areas where the candidate scored high to ensure his/her past behaviors justify their high test scores.

Reliability

Score **77** High

Description: Reliability measures the degree to which the individual is likely to be dependable, hardworking, and conscientious about the quality of his/her work. This characteristic is appropriate for all jobs.

About the Applicant: This individual's Reliability score falls within the High range. There is a higher probability that this individual is dependable, hardworking, and conscientious about the quality of his or her work than for those scoring lower. This is definitely an area of strength for this individual.

Trustworthiness

Score **76** High

Description: Trustworthiness measures the degree to which an individual is likely to be honest and trusting of others. This characteristic is important for most, if not all jobs, with special emphasis on jobs that involve handling cash or confidential or sensitive information.

About the Applicant: This individual's Trustworthiness score falls within the High range. There is a higher probability that this individual is honest and trusting than for those scoring lower. This does not appear to be an area of concern for this individual.

Analyzing

Score **89** High

Description: Analyzing measures the degree to which the individual can quickly and accurately refer to information presented in the form of a table and answer questions related to that information. This characteristic is appropriate for jobs requiring looking up information on computer screens, spreadsheets, or charts. Most clerical jobs require some degree of this ability.

About the Applicant: This individual's Analysis score falls within the High range. There is a higher probability that this individual has the ability to quickly and accurately look up or verify information from documents or computer screens such as in spreadsheets or numerical charts than for those scoring lower. This is definitely an area of strength for this individual.

Attention to Detail

Score **99** High

Description: Attention to Detail measures the degree to which the individual can quickly and accurately compare two strings of letters and/or numbers much like tasks that involve verifying information. This ability is important for most clerical jobs. It is also appropriate for jobs that require proofing tasks.

About the Applicant: This individual's Attention-to-Detail score falls within the High range. There is a higher probability that this individual is detail-oriented and has the ability to perform tasks such as quickly and accurately verifying and proofing written information than for those scoring lower. This is definitely an area of strength for this individual.

Reasoning

Score **99** High

Description: Reasoning measures the degree to which this individual has the ability to learn quickly, problem solve and understand basic mathematical concepts. This ability is appropriate for most, if not all, jobs.

About the Applicant: This individual's Reasoning score falls within the High range. There is a higher probability that this individual is a quick learner who understands basic mathematical concepts and resolves problems using logic and reasoning than for those scoring lower. This is definitely an area of strength for this individual.

Math Skills

Score **100** High

Description: Math Skills measures a basic understanding of mathematical computation and concepts (e.g., making change, calculating percentages, applying discounts, basic addition, subtraction, division and multiplication). The ability to solve these types of problems has also been related to speed of learning and general problem solving skills. This test is appropriate for jobs requiring knowledge of basic math functions (e.g., cashiers, tellers, basic accounting, payroll, etc.).

About the Applicant: This individual's Math Skills score falls within the High range. There is a higher probability that this individual is a quick learner who understands basic mathematical concepts and solves problems using logic and reasoning than for those scoring lower. This is definitely an area of strength for this individual.

MS Excel

Score **80** High

Description: Microsoft Excel measures the degree to which an individual understands the fundamental functionality of Microsoft Excel. This assessment is appropriate for jobs requiring knowledge of Microsoft Excel.

About the Applicant: This individual's Microsoft Excel score falls within the High range. There is a higher probability that this individual understands the fundamental functionality of Microsoft Excel. This is definitely an area of strength for this individual.

Responses & Interview Questions

Below you will find interview questions based on the applicants answers given during the assessment. Questions are generally only provided for questions where the applicant's answer negative affected their score. Therefore, if an applicant scores well on the assessment, this section will be shorter than if they scored poorly.

Candidness

Question: I have never told a lie to avoid the possibility of an uncomfortable situation.

Answer: Strongly Agree

Follow-Up Question: Would you agree that most people at one time or another have stretched the truth to avoid negative consequences? Have you ever found yourself in one of those situations? Please explain using work related examples.

Question: On occasion, I have said or done something to hurt someone's feelings.

Answer: Disagree

Follow-Up Question: Has there ever been a time when you did something that upset someone? Please give work related examples?

Question: I have never been bothered when others have disagreed with me.

Answer: Agree

Follow-Up Question: How do you feel when others disagree with you?

Question: I never feel upset if things do not go my way.

Answer: Neutral

Follow-Up Question: How do you feel if things do not go your way? Isn't it natural to feel a bit upset? Please explain your answer.

Reliability

Question: I am annoyed by people who show up late to meetings.

Answer: Neutral

Follow-Up Question: How much emphasis do you place on being punctual? Is it really that important?

Trustworthiness

Question: The only way to be successful in today's world is to be honest, fair, and truthful.

Follow-Up Question: Can you give some examples of when it might not pay to be honest or fair in business? Have you been

Answer: Neutral

Analyzing

The table is divided into "Company A" and "Company B." Within the table you will find a list of seven jobs, their respective job codes and the minimum qualifications regarding education and relevant work experience that each company requires of an applicant applying for that job.

Job	Company A				Company B		
	Job Code	Minimum Education Required	Minimum Work Experience Required		Job Code	Minimum Education Required	Minimum Work Experience Required
Computer Programmer	03	16 years	3 years		21	14 years	2 years
Clerk Typist	11	12 years	1 year		17	12 years	2 years
Sales Manager	07	16 years	5 years		15	18 years	5 years
File Clerk	10	12 years	1 year		19	12 years	0 years
Service Representative	13	12 years	3 years		23	12 years	1 year
Data Entry Clerk	09	12 years	2 years		27	12 years	0 years
Finance Manager	04	18 years	3 years		18	16 years	5 years

Company A is interested in filling the Computer Programmer position. Which applicant/applicants below is/are qualified for the job?

Candidates Answer: Applicant C (16 years of education, 3 years of work experience)

Correct Answer: All applicants are qualified

Reasoning

Question: Nicholas bought three business related books. His total bill was \$150. If one book cost him 50% more than the other two books combined what was the price of this more expensive book? Incorrect

Candidates Answer: \$100.00

Correct Answer: \$90.00

Question: In the group of words below which does not belong?

Incorrect

Candidates Answer: capacity

Correct Answer: performance

MS Excel

Question: In Microsoft Excel, to calculate the average of cells B1 through B9, you would?

Incorrect

	A	B	C	D	E	F	G	H
1		\$125.00						
2		\$455.00						
3		\$56.00						
4		\$5.00						
5		\$125.00						
6		\$455.00						
7		\$56.00						
8		\$5.00						
9		\$264.00						

Candidates Answer: AutoSum drop down menu

Correct Answer: Type "=average(" into the formula bar

Question: In Microsoft Excel, if you click on the right corner of cell A9 and drag it down two rows, what will happen?

Incorrect

	A	B	C	D	E	F	G	H
1								
2								
3								
4								
5								
6								
7								
8								
9	=B2+C2							

Candidates Answer: The information in cell A9 will be moved to cell A11.

Correct Answer: It will auto fill the 2 rows below cell A9

Question: In Microsoft Excel, to calculate the total in cells C1 through C6, you start by selecting?

Incorrect

	A	B	C	D	E	F	G	H
1			\$125.00					
2			\$455.00					
3			\$56.00					
4			\$5.00					
5			\$125.00					
6			\$455.00					
7								
8								
9								

Candidates Answer: Typing "=sum(" into the formula bar

Correct Answer: Selecting Cell C7

Question: In Microsoft Excel, you have a large dataset that will print on several pages. You want to ensure that related records print on the same page with column and row labels visible and that confidential information is not printed. You should apply all of the following page setup options except which one to accomplish this?

Incorrect

Candidates Answer: Change the print page order

Correct Answer: Adjust page breaks
