Objective

I am seeking a challenging, fulfilling position in maintenance and construction utilizing my education, knowledge, leadership skills, and over fifteen years of experience in the trade.

Experience

Element National Management, LLC **2019-present**

November

Responsibilities and duties encompass all trades required for the maintenance of 360 units on property, including townhomes and apartments. Preventive maintenance schedule is followed daily, as well as responding to service requests. Daily tasks vary, and can include: HVAC work; plumbing work; drywall work; electrical work. Service requests might relate to plumbing needs, electrical issues, drywall repair needs, kitchen appliance repairs, and more. I am part of a four-man crew, working both autonomously and as part of the team.

R-Home Property Management, LLC. **November 2019**

December 2018-

Job duties and responsibilities span several different trades, performed within 174 units at a partially HUD-funded apartment complex. Daily tasks are dictated by a preventive maintenance schedule, and resident-submitted service requests. Preventive maintenance on each unit includes cleaning HVAC coils and filters; checking windows for leaks; checking the plumbing in each unit; testing smoke detectors; checking all locks; and making sure water heaters are functioning properly. Service requests might be related to plumbing needs, electrical issues, drywall repair needs, repairs to kitchen appliances, as well as various other trades. I am also part of the on-call rotation for four area buildings. In addition, I have enthusiastically taken on the responsibility of training a new employee, and have been performing as acting maintenance supervisor. This position has allowed me to build upon my leadership skills, preparing me for the opportunity to take on an official supervisor role.

Estate Investors, Mechanic/Technician **December 2018**

August 2018-

Responsibilities and duties include a variety of tasks related to the home improvement process. Primary duties include: plumbing; electrical work; drywall; framing; drywall finishing; flooring; siding; roofing; cabinet installation; window installation; and appliance installation. Other responsibilities include working independently, as well as contributing to a team environment. Strengths include flexibility and adaptability, as scope of projects and project locations regularly vary.

JNL Quality Home Improvement, Inc, Journeyman/Team Leader **August 2018**

August 2013-

Job duties span the entire home improvement process, including but not limited to: whole home renovations; deck installations and repairs; roof installation and repairs; drywall projects; tiling; whole kitchen remodeling; wood and laminate flooring; door and window installations; siding; framing; and more. Other skills include working independently and as part of a team, as well as communicating with customers, ensuring their needs and expectations are met satisfactorily.

J & J Electric Company, Journeyman/Installer **2013**

June 2012-Aug

Assisted in installation of various electrical equipment and components at Capital Raceway. Utilized

problem solving capabilities to address potential issues. Worked independently and as part of a team. Maintained a safe working environment for others and myself.

**Furniture Installation Team, Driver/Installer
2012**

May 2012-Dec

Loaded office equipment and furniture on to 24' box truck; transported truck and co-workers to various job sites to unload and install office furniture and equipment. Provided excellent customer service and professionalism. Exercised effective teamwork skills on a daily basis to accomplish common goals.

Site Support Services, Mechanic/Pipe Fitter
2012

Feb 2008-May

Commercial HVAC installation and maintenance at large commercial buildings. Laid out and installed climate control systems, pipe work, and operation controls within computer server rooms. Maintained proper work environments. HVAC systems include but are not limited to Liebert Systems.

**Chesapeake Mechanical, Mechanic/Pipe Fitter
2004-Jan 2008**

Nov

Installed commercial HVAC systems, steam and hot water systems, cooling towers, and hot tubs. Worked with various materials, including steel, copper, and carbon steel pipes. Exercised leadership abilities on assignments with responsibility and supervision of several subordinates. Additional duties included but were not limited to: assessing and ordering necessary materials; quality control of systems to ensure optimal performance; and attendance of progress and safety meetings on the company's behalf.

**W.L. Gray, Mechanic/Steamfitter
1999-July 2003**

Feb 2004-Oct 2004; Dec

Installed all heating and HVAC systems. Attended apprenticeship program through Steamfitters UA Local 602 (see Education section). Exercised leadership abilities on assignments with responsibility and supervision of several subordinates. Carried out administrative responsibilities and tasks.

**Added Performance, HVAC Technician
Dec 2003**

July 2003-

Installed residential HVAC units, commercial-sized heat pumps, and commercial back flow preventers. Modeled excellent teamwork abilities and impeccable customer service skills.
