KEVIN STAFFORD JR.

OBJECTIVE To secure a position within an organization that offers challenge and opportunity for my career development and at the same time serve the organization to the best of my capabilities. I would like to gain new skills while utilizing my current area of expertise of procurement and employee satisfaction services within a positive team environment.

SKILLS & ABILITIES

- Excellent ability to focus on working efficiently across a multitude of tasks
- In depth knowledge of inspecting products in order to maintain quality and productivity standards
- Functional know-how of operating manual material handling equipment
- Solid knowledge of completing paperwork and maintaining a clean and neat work environment
- Avid understanding of production procedures
- Strong work focus
- Ability to multitask
- Excellent communication and organizational skills
- Demonstrated ability to work in a team-fostered environment with minimal supervision

PHYSICAL CAPABILITIES

- Able to lift over 50lbs
- Ability to stand and walk for extended periods of time
- Outstanding physical dexterity
- Able to bend and stoop and work in adverse climatic conditions

EXPERIENCE

MATERIALS CONTROL MANAGER, AERO TEK/ CATALENT

FEBRUARY 28TH, 2020- CURRENT

- responsible for supporting the overall GMP materials control/warehousing operations for a Phase II/II GMP biopharma manufacturing facility. Shift equipment and materials
- practical experience and knowledge of a variety of activities such as materials receipt/quarantine/release, logistical support in a manufacturing facility, electronic inventory control and distribution/shipping of products
- Conduct reviews of GMP documentation associated with materials control (material specifications, receipt inspection forms, inventory records, item request form)
- Assess the Materials Control operation on a continuing basis and providing recommendations for improvement is encouraged
- GMP documentation (SOPs, etc.) is expected
- participate in the receipt of all GMP materials – rectify discrepancies, matching vendors' documentation against Paragon requirements (GMP and accounting). Initiates appropriate documentation in a timely manner
- distributes materials for GMP operations following approved procedures. This includes assisting in the reconciliation of all GMP materials at the conclusion of client campaigns
- Compile and maintain inventory records
- Takes receipt and inventory control of Paragon generated material (cell banks, bulk protein, etc.)
- Assists with performing internal audits
- participates in regulatory (FDA, EMEA) and client audits/inspections of Paragon and the facility
- Works under general supervision to meet project goals
- Works closely with QA to quarantine and release all GMP materials in a timely manner
- Participates in the organization and cleanliness of the warehouse will be critical
- Assists in the training of "junior" personnel
- works closely with various departments at Paragon and helps as needed. This may include support for pre-clinical projects
- Works closely with various departments and helps as needed
- Other duties as assigned by supervisor
