RE: Important information about Internal Revenue Service reporting

Dear Ann Maynard-HR-Professional:

Each year, the Patient Protection and Affordable Care Act requires health insurance companies to confirm their members have minimum essential coverage to the Internal Revenue Service (IRS). This report requires the name and Taxpayer Identification Number (TIN)- typically the social security number (SSN) - of every individual covered by the plan.

Our records indicate that we do not have SSNs on file for some of your employees and/or their dependents covered under your health plan. In the coming weeks, we will send a letter to these members requesting that they provide the missing SSNs to us. A copy of this letter is enclosed. We will also send the same letter to any employee(s) you add to your group's plan without an SSN on file.

We assure you that protecting member information is very important to us. We maintain a vigilant data security program to safeguard your employees' personal information.

The information we report to the IRS will also be used to provide your employees with the required IRS Form 1095-B. Your employees will need the information in the Form 1095-B to complete their tax returns. If Capital Blue Cross does not have SSNs to report their healthcare coverage status accurately, it may affect your employees' ability to file their annual tax return.

If you have questions, please contact your Capital Blue Cross account executive or producer.

Thank you for the opportunity to provide your company with health coverage. We are committed to continuing to serve you and your plan members with excellence.

Sincerely,

Jack J. Jaroh

Dear Subscriber Name:

The Patient Protection and Affordable Care Act requires health insurers to send certain information to the Internal Revenue Service (IRS) confirming you and your covered dependents have qualifying health coverage ("Minimum Essential Coverage").

Every year, we file Form 1095-B, ("Form 1095-B"), which includes a list the names and social security numbers (SSNs) for every individual covered by your insurance policy. The IRS uses this form to verify information on your personal income tax return.

Our records indicate that we do not have SSNs on file for you and/or your covered dependents listed on the back of this letter. Please complete the chart and submit the information using one of the following methods in the next 30 days.

1. Return this letter, with the completed chart, using the enclosed postage-paid envelope.
2. Go to CapitalBlueCross.com, log in to your secure account, and click on "Add Social Security Number" under "Benefits."

If you or your dependents' SSN is incorrect or missing, the IRS will be unable to verify your return. Individuals must provide their SSN, or they could be subject to a \$50 penalty imposed by the IRS under section 6723.

Please know that protecting member information is very important to us. We maintain a vigilant data security program to safeguard your personal information.

If you have questions, please call the number on the back of your ID card.

Thank you for being such a valued Capital Blue Cross member. We are committed to continuing to serve you with excellence.

Sincerely,

Jack J. Jaroh
