Frequently Asked Questions

Who is Alton Health?

Alton Health is one of the largest physician-owned and physician-led acute care medical groups in the United States. We are proud to partner with many of the country's most prestigious and well-respected healthcare systems, including the hospital where you received care.

Why am I getting a bill from a provider whom I did not see?

You may not meet all providers who assist with your care. For example, you may not have met with the physician who supervises the nurse practitioner that assessed you, or the pathologist who reviewed your lab results.

Why am I being billed twice for the same service?

If you received care in a hospital setting or clinic, you may be billed for both professional and facility fees, and may see two charges for the same service. Professional fees are related to the time your caregiver spends treating you during your visit. Facility fees are for the use of the healthcare facility, equipment, supplies, and staff supporting your provider.
