

Johnstone Supply the Wallace Group Summary of Health Insurance Benefits and Deductions

We believe healthcare coverage is a very important benefit provided by Johnstone Supply. We have diligently worked to navigate complex government rules and coverage options in order to provide the best value for employees as well as the company.

It is no secret that healthcare costs continue to rise annually so we are always looking for solutions to mitigate costs for employees and the company. To that end, we have partnered with ClaimLinx, which came highly recommended from other Johnstone groups.

We continue to offer the same medical, dental, and vision plans as last year. In addition, ClaimLinx has assisted us in adding another medical insurance carrier so rates will remain flat with no increase to employee contributions.
