

Below is the CIA landing page that will display once logged in. All options on the left under 'MyCIA' are defined in the middle of the page. The MyCIA options will show on all pages for easy navigation.

E-Consents and the various search views (Pending Searches, Completed Searches, Pending and Completed, All By Name, Archived (0-90 Days), Ordered By) will be your most common selections.

MyCIA » Add New Request » Search (All) » Pending Searches » Completed Searches » Pending and Completed » RFIs » E-Consents » All By Name » Ordered By » Archived (0-90 Days) » Billing & Invoices » Account Settings News & Alerts Sep 1, 2021 :: Court Closures and Delays... » Read more Support Name: Support Phone#: 214-382-2727 » Option #3 E-Mail: » Support	Hello, Jason T Pricing from TESTING ACCOUNT-OTHER BRANCH3 MyCIA Welcome to the MyCIA Web Portal. From here you can accomplish all of your background screening tasks. Below is a description of each task available to you. Tasks Available at MyCIA » Add New Request This task is for ordering all of your background requests. This includes any type of search offered by CIA including criminal, civil, social security traces and verifications. Any search which requires a release form will not be started until the signed form has been received. Please fax: 214-382-2732 or email: requests@ciaresearch.com. » Search (all) This task is used to search for any new or old searches you have added. This will retrieve searches you added in the last 10 minutes, or in the last 10 months. Searches do take about 5 or 10 minutes to be added to the search index. » Pending Searches This view is used to show any searches which have already been ordered and have yet to be completed. If you order 3 searches for a person, and 2 of the searches return instant results (i.e. social security trace), then only 1 of the searches will show up in this view. To open an individual search, click the "(one)" link next to the name. This will display the search in a new window. If you ordered more than 1 search for a person and you would like to see all the results on one page, single click the "(all)" link next to the name of the search you want to view and this will open the full report in a new window. » Completed Searches This view is used to show any searches which have already been ordered and have results that are completed. This includes searches that return instant results. Searches will stay in this view until they are archived, or for a maximum of 30 days. To archive completed items from this view, you may open each item and click "Archive" or you may select multiple items by putting a check mark next to them and then click the "Archive" button on the top of the view. To open searches in this view, follow the same directions above under "Pending Searches".
---	---

E-Consents – Send an electronic consent form to your candidate via email to initiate the background check. You can also download the signature page of completed forms and view forms that are still pending candidate completion. Links can be cancelled or resent through the Pending view. See page 3 for additional details.

Add New Request – This is where you manually initiate a background check in a situation where a candidate is unable or unwilling to complete the E-Consent form. See page 5 for additional details.

Search (All) – Any background check that is older than 90 days can be pulled up here. We will retain a record of all background checks on your account for 5 years from the order date. See page 7 for additional details.

Pending Searches, Completed Searches, Pending and Completed, All By Name, Archived (0-90 Days), Ordered By –

These are the various ways to view your background checks within the past 90 days. The archived view is for searches you chose to remove from the standard 90 day views. This is generally done by higher volume clients to help keep the standard views limited to background checks that have not been reviewed. The ordered by view will show the requests separated by the user that ordered them. Pending Searches view will display ETA's based off recent results. You can initiate an electronic Adverse Action process by viewing the report in these views. See page 8 for additional details.

RFI (Request for Information) – This is where you will go to reply to any RFI emails that you receive. These are sent before we start the full background check when it looks like information (Name, DOB, SSN) may have been provided incorrectly. See page 9 for additional details.

Account Settings: Add users, adjust login information, configure email alerts, etc. See page 10 for additional details.

Initiate a background check with electronic consent E-Consents:

To send an E-Consent link you will select 'Send E-Consent Notices' from the E-Consent view.

The screenshot displays the MyCIA user interface. On the left is a sidebar menu with the following items: 'Add New Request', 'Search (All)', 'Pending Searches', 'Completed Searches', 'Pending and Completed', 'RFIs', 'E-Consents', 'All By Name', 'Ordered By', 'Archived (0-90 Days)', 'Billing & Invoices', 'Account Settings', and 'News & Alerts'. The 'E-Consents' item is highlighted. The main content area has a header that says 'Hello, Jason T Pricing from TESTING ACCOUNT-OTHER BRANCH3'. Below this is the section 'MyCIA - E-Consents'. Underneath is a sub-section 'Tasks Available at MyCIA - E-Consents' which lists four tasks: 'Send E-Consent Notices' (describing the ability to email up to 10 people), 'Completed E-Consent Forms' (describing the ability to view and download forms), 'Pending E-Consent Forms' (describing the ability to view pending forms and cancel them), and 'Archived E-Consent Forms' (describing the ability to view archived forms).

Hello, Jason T Pricing from TESTING ACCOUNT-OTHER BRANCH3

MyCIA - E-Consents

Tasks Available at MyCIA - E-Consents

- » **Send E-Consent Notices**
This form will allow you to e-mail up to 10 people who you want to fill out an e-consent form. A unique link will be e-mailed to each person. A reminder e-mail will be sent if they do not fill out the e-consent form on the first day.
- » **Completed E-Consent Forms**
This view show you a list of e-consent forms collected. You can view and download the forms from this view. You can also place order from these forms by opening each form and clicking 'Place Order'.
- » **Pending E-Consent Forms**
This view show you a list of e-consent forms collected. You can view pending e-consent forms that have not been completed yet. You can also cancel them from this view.
- » **Archived E-Consent Forms**
This view show you a list of e-consent forms which have been archived.

You can download completed forms through the completed view.

The pending view will show candidates who have not completed the form. You can cancel or re-send here.

Archived E-Consent forms will show the forms that were archived from the Completed view.

Enter name, email address, designate them as employee or volunteer, and select the level of background check you want performed when the form is submitted back to us.

Select 'Send E-Mail' – we will send the link to your candidate and copy the username you are logged in under.

E-Consent Notification

E-mail a link to your volunteers or applicants to start the background check process.

Step 1: Enter first name, last name, e-mail address, choose "Employment" or "Volunteer" type and select the package to order.

Step 2: Click "Send E-Mail(s)" and an e-mail will be sent with a link to get the process started.

Reminder e-mails will be sent if the e-consent is not filled out within 24 hours. Once the e-consent form is collected, the selected package will be ordered.

Manually requesting a background check or adding to an existing report

Add New Request:

This screenshot shows the selections that are needed to initiate a package option. You will first select 'Package' in the services box and then the desired package. You would only need to do this in a situation where the candidate will not be completing the E-Consent form.

When adding a search to an already existing background check select 'Order More' in the top left hand corner of the report (pull this up from one of the search views). This will bring you to this screen where you can select the a la carte services to add. All of their personal information will be pre-filled and the searches you add will show on the original report.

Finding background checks older than 90 days

Search (All):

Search - enter values in 1 or more fields below for your search

please note formatting on date and social security number fields:

Last Name (partial name allowed)		First Name (partial name allowed)	
Date of Birth (mm/dd/yyyy)		Social Security # (xxx-xx-xxxx)	
From Date (mm/dd/yyyy):		Reference #	
To Date (mm/dd/yyyy): (leave blank to search only on "From Date")			

How far back: ☒ 0 to 90 days (fastest) ☐ up to 1 year (fast) ☐ up to 3 years (slower) ☐ up to 5 years (slowest)

[search](#)

This is where you will go to pull up any background check results that are older than 90 days but less than 5 years. You can search for a specific person or all background checks within a specified time period.

When searching for a person I recommend using the first 3 letters of first or last name.

Be sure to adjust the 'How Far Back' at the bottom to fit the time frame of the background check. Adjust to 5 years if unknown.

Results will populate below. Click the name of the report you want to view and then 'Full' in the top left hand corner to open a Full Report (summarizes of all results on that candidate)

Search Management and Reviewing Results

Pending Searches, Completed Searches, Pending and Completed, All By Name, Ordered By, Archived (0-90 Days):

Previous Page ♦ Next Page ♦ [Archive Selected Requests](#)

These are all ways to monitor your background checks within the past 90 days.

Green check marks indicate 'no record' or a 'clear' search result. Red stop signs indicate we are reporting a record back to you.

The Pending Searches view will display ETA's based off our requests in that area over the past 90 days. When there is a wide range displayed that will generally indicate we can complete a 'clear' result fast but possible records get routed through a court clerk.

Select 'full' to open a Full Report on that candidate. Select 'one' to view that single search result. The Full Report is the easiest way to review the background check result. You can initiate an adverse action or add more searches to the background check by viewing the 'full' or 'one' report.

To remove a candidate from these views select the box(es) on the far left and select 'Archive Selected Requests'. This will move them to the 'Archived (0-90 Days)' view until they hit 90 days. After 90 days all background checks can be pulled up using 'Search (All)'. This is generally done after reviewing a candidate so they do not remain in the views you are monitoring your non-reviewed candidates through.

Responding to RFI (Request for Information)

RFIs:

Pending RFIs

[Previous Page](#) ♦ [Next Page](#)

No documents found

[Previous Page](#) ♦ [Next Page](#)

Prior to beginning the background check our staff will review the result of the Social Security Trace and alert you of any potential issues. This view will show any open RFI's and a button you can respond through.

The most common RFI's will be when the supplied DOB does not match what we are finding through the candidates SSN or when SSN provided has a typo. This data is mainly pulled from credit bureaus so a young candidate may not have much, or any, information produced through the SS#.

You will also receive an email notification with a link that will bring you to the RFI response form. These are directed to the username the order is placed under.

Adding Users, Changing Email Address/Password, Email Alert Configuration Account Settings:

MyCIA - Account Settings

Tasks Available at MyCIA - Account Settings

» Add New User

This form is for adding new users to your account. Each new user must be approved by someone internally at CIA. This process usually takes 10 to 20 minutes.

» Active Users

This is a list of all the users on your CIA account. This list is for display purposes only. If you would like to have a user removed, please e-mail us at sales@ciaresearch.com.

» Logon Settings

This form is for each person to change their logon settings for their account. You may change the name on the account, username/email and password with this form.

» On-Line Settings

This form is for customizing your 'MyCIA' settings. You can decide if you want e-mail confirmations on each new request, what details to show on reports, and re-screening options.

Add New User – Allows you to create additional usernames for the account.

Active Users – List of users with access to the account.

Logon Settings – Update the Name, Email, or Password for the username you are logged in under.

On-Line Settings – Email Alert Configurations; Background check expiration notifications
