Logistics Feedback Claims

All transportation discrepancy claims for overages, shortages, and damages need to be reported to Logistics Feedback using the following online claim form: <http://www.goodmanmfg.com/logistics-feedback>

Please see below for a short overview of our freight policy, and the documentation we will need to process your claim.

Equipment/Service Parts Overage, Shortage, & Damages (OS&D)

Goodman will continue to make every effort to provide appropriate packaging for its products, choose reliable carriers for shipment, and devote special attention to proper loading of equipment and service parts. However, when problems are encountered, the Distributor is required to accept the delivery, unload the product, and follow these procedures.

Overages

- In the event an equipment or service part overage is identified at the time of delivery, the Distributor must notate such overage on the carrier's Delivery Receipt and/or BOL.
- Model(s) and serial number(s) of the overage unit(s) should be notated on the BOL and reported.
- Distributors will be responsible for identifying an overage and reporting it within 24 - 48 hours after time of delivery.

Shortages

- In the event a shortage is identified at time of delivery, the Distributor must notate such shortage on the carrier's Delivery Receipt and/or BOL.
- For service parts only, the distributor must notate the number of cartons on each pallet. Note: DO NOT count pallets in lieu of counting cartons. A pallet count will be seen as not following the process.
- Distributors will be responsible for identifying a shortage and reporting the following information within 24 - 48 hours after time of delivery. This should include:
 - Copy of BOL with notation of shortage(s), including model(s) and serial number(s), and driver signature.
 - Goodman Packing List (titled "Trailer Load Summary Document")
 - Please notate any delivery that appears to have been tampered with in transit. (I.e. shrink-wrap not intact).
 - All loads that ship LTL are placed on pallets and shrink-wrapped for safe transit. If shrink-wrap is missing, please notate that on the carrier's Delivery Receipt and/or BOL. That will provide evidence that the shortage occurred while in the carrier's possession.

Damages

- In the event equipment or service parts damage is identified at time of delivery, the Distributor must report the damage within 24- 48 hours of receipt following the process detailed below:
- Photographs must be taken of the damage while product is still on the truck, and of each unit/part individually to show the extent of damage. All photographs must be in JPEG format.
- Notate the damage on the carrier's Delivery Receipt and/or BOL with Specific Details (e.g. model #'s & serial #'s) must be provided and have the driver sign the BOL.
- Attach the BOL and "Trailer Load Summary Document" to your claim form.

Recipients must accept all shipments, as Goodman has a "NO REFUSAL POLICY"

FAILURE TO FOLLOW THE ABOVE PROCESS WILL RESULT IN CLAIM DENIAL

Any questions of concerns you may contact us at Logistics.Feedback@goodmanmfg.com
